

**PacifiCorp Foundation
Final Grant Report**

Organization: Name
Contact Person: Ms. Smith
Project Title: Senior Peer Counseling Program

During the time period between {*grant date*} and {*report date*} the entire {*grant amount*} grant was utilized. This amount was used for personnel costs associated with the expansion of the volunteer project in Idaho County. The Program Coordinator has continued on outreach to potential community partners and volunteers. This outreach has increased the Senior Peer Counselor volunteers from 6 to 17 in Idaho County in the last year. These volunteers average approximately 80 hours per month helping three to four new clients each month. Peer Counselors attend regular 8-hour training two to three times each year. These counselors usually focus on grief and depression counseling, but are also assisting seniors in obtaining other available services such as family caregiver support and prescription drug assistance.

With the use of this grant, a solid volunteer base has been established in Idaho County. Thank you for allowing us to expand our Senior Peer Counseling program in Idaho County, which will continue to assist seniors with life events. The financial statement is attached.
