909 Dana Dr. Ste 2F-Box 375, Redding, CA 96003**

ELIGIBILITY REQUIREMENTS

To participate you must be a Pacific Power customer in California who currently uses electricity for irrigation and who receives electric service on one of the following retail general service schedules PA-20 or PA-40.

Qualifying Equipment. Nozzles that qualify include worn irrigation nozzles installed on hand lines, solid set or wheel line systems. Replacement nozzles must be standard or flow control brass nozzles with the same design flow rate or less.

TERMS AND CONDITIONS

By accepting the irrigation nozzle incentive and signing this form below, you agree to the following terms and conditions:

Qualifying Customers. Eligible customers include irrigation customers whose facilities are within the State of California and who purchase their electricity from **Pacific Power** on one of the following retail general service schedules: PA-20 or PA-40.

Eligible Dates. The Terms & Conditions cover qualifying equipment purchased on or after February 19, 2008 and before December 31, 2008. Incentive applications for 2008 installations must be postmarked by January 31, 2009. Applications received after this date may not be processed. Equipment must be purchased and installed prior to submitting an incentive application. For 2009 installations, visit the program Web site at www.pacificpower.net/casave.

Incentive Limitations & Limitation of Damages. Pacific Power does not warrant the performance of qualifying/installed equipment and does not warrant that the qualifying/installed equipment will deliver any specified amount of energy or cost savings. The customer shall independently evaluate the qualifying equipment. In no event will Pacific Power be liable for the failure of the customer to achieve its expected amount of energy savings, for harm to customer's facilities of any kind, or for any incidental or consequential damages of any kind in connection with installation of this qualifying equipment.

Transfer of Environmental Attributes: Customer hereby transfers to Pacific Power all "Environmental Attributes" attributable to the installation of the qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities, through reduced generation of energy or other savings or offsets on account of the qualifying equipment. Customer will not claim ownership of any Environmental Attributes. As long as Customer at the same time states the installation of the qualifying equipment was made possible with funding from Pacific Power, Customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

Additional Details. Incentive qualifications and amounts are subject to change and termination at any time. Customers should visit the program's Web site, review the Incentive Catalogs, or contact Pacific Power or your local equipment dealer for current program information. Pacific Power reserves the right to conduct random inspections to verify information provided on the application. After incentive payment, Pacific Power reserves the right to inspect qualifying equipment, which may include a telephone survey, site visit, and/or the installation of temporary monitoring equipment at any time up to 36 months after installation for quality control of the application or program performance evaluations. Pacific Power issues FinAnswer Express incentives in the form of checks, not utility bill credits. Pacific Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Pacific Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Qualifying equipment receiving incentives under the FinAnswer Express program may not receive purchase or installation incentives or credits under other Pacific Power programs. Please allow six weeks for your incentive check to arrive.
