

Reap **savings** with Pacific Power's energy efficiency programs for California irrigators

Improving your irrigation system's energy and water use is an effective way to grow your operation's bottom line. Pacific Power's new energy efficiency programs and incentives for our California irrigation customers can help you upgrade your system and save energy and money.

Programs and incentives now available include:

FinAnswer® Express

Receive cash incentives when you replace worn nozzles or upgrade to premium efficiency motors. The incentive amount is based on the equipment you purchase and install. For example, replace used standard or flow control brass nozzles installed on a hand line, solid set or wheel line system and receive \$0.68 per nozzle, up to 100 percent of cost. Some motor incentives are shown below.

Incentives for premium efficiency motors*

HORSEPOWER	INCENTIVE (\$/MOTOR)
25	\$117
50	\$198
75	\$270
100	\$360
150	\$630

*These are just a few of the motor incentives we have available. You'll find the complete list on our Web site.

Energy FinAnswer®

Our Energy FinAnswer program provides no-cost pump testing, irrigation system analysis and custom incentives of \$0.12 per kilowatt-hour annual energy savings plus \$50 per kilowatt average monthly demand savings. (Incentives are capped at 50 percent of project cost.) It's important that you apply before you order new equipment.

To learn more about these programs, contact your Pacific Power energy experts at 1-800-222-4335 or visit www.pacificpower.net/casave.

For customers with operations in Oregon, please contact Energy Trust of Oregon toll free at 1-866-368-7878 or online at www.energytrust.org for information on energy efficiency incentives.
