SUPPLY SERVICE

OREGON
SCHEDULE 200
Page 1

Available

In all territory served by the Company in the State of Oregon.

Applicable

To Residential Consumers and Nonresidential Consumers who have elected to take this service or who have elected to take service under Schedules 212 or 213. This service may be taken only in conjunction with the applicable Delivery Service Schedule. Also applicable to Nonresidential Consumers who, based on the announcement date defined in OAR 860-038-270, do not elect to receive standard offer service under Schedule 220 or direct access service under the applicable tariff. In addition, applicable to some Large Nonresidential Consumers on Schedule 400 whose special contracts require prices under the Company's previously applicable Schedule 48T. For Consumers on Schedule 400 who were served on previously applicable Schedule 48T prices under their special contract, this service, in conjunction with Delivery Service Schedule 48, supersedes previous Schedule 48T.

Nonresidential Consumers who had chosen either service under Schedule 220 or who chose to receive direct access service under the applicable tariff may qualify to return to service under this Schedule after meeting the Returning Service Requirements and making a Returning Service Payment as specified in this Schedule.

Returning Service Requirements

For Nonresidential Consumers who have chosen service under Schedule 220, Standard Offer Supply Service or who have chosen Direct Access Delivery service under the applicable tariff. A Consumer shall meet the Returning service Requirements of this Schedule by making a request to the Company to receive service under this Schedule and agreeing to pay to the Company a Returning service Payment that compensates for the increased cost of serving such returning Consumer due to an increase in market price as compared to the market price used in determining the Consumer's applicable transition credit as specified under Schedule 294. Upon return to this Schedule, PacifiCorp will cease applying Schedule 294 to the returning Consumer receiving service under this Schedule and shall remove the Consumer's Schedule 294 credit from the transition adjustment balancing account.

Returning Service Payment, expressed in dollars, shall be the result of multiplying the expected remaining monthly usage times the difference between the forward market price at the time of the Consumer's request to return to Schedule 200 and the forward market price used for determining the Schedule 294 Transition Adjustment, times 110 percent.

The Payment shall be based on the Consumer's expected monthly usage and the Company's current forward energy market prices. The Consumer's expected remaining usage shall be based on a pro rata share of the current month's usage and Consumer's historical data for each remaining month of the period over which the Transition Adjustment was calculated. Consumer's usage will be allocated into peak and off-peak periods by month using a predetermined peak/off-peak ratio for Customer's applicable Delivery Service Schedule.

The payment will be calculated by multiplying the monthly allocated peak- and off-peak usage by the difference between the forward market price at the time of the request and the forward market price used for the Schedule 294 Adjustment. The Returning Service Payment will only apply if the result of this calculation results in a positive number.

For the Consumer who chooses direct access service or Schedule 220, the Consumer will pay the Returning Service Payment to return to service under this schedule.

Upon receiving the calculated amount of the Returning Service Payment from the Company, Consumer shall have until the close of business on that day to execute the agreement to pay the Returning Service Payment.
