## Keeping you informed

### **Pacific Power Notice of Application for a Rate Increase and Authorization to Transfer Assets Pursuant to the Klamath Hydroelectric Settlement Agreement**

On March 18, 2010, Pacific Power filed an application with the California Public Utilities Commission (CPUC) requesting authorization to establish a rate surcharge beginning January 1, 2011, to fund California's share of the costs related to removal of four dams on the Klamath River pursuant to the terms of the Klamath Hydroelectric Settlement Agreement (KHSA). The funds collected through the surcharge would be placed into trust accounts to be established by the CPUC. If the conditions of the KHSA are met, the dams would be removed no earlier than 2020. The application demonstrates that the cost to customers associated with the KHSA compares favorably to continuing to seek relicensing of the dams. In addition, the KHSA protects customers from any liability associated with dam removal and ensures that customers continue to benefit from the low-cost power of the dams until they are removed.

The proposed surcharge is designed to collect approximately \$1.53 million per year over a 9-year period. If approved, the surcharge would have the following estimated average increase to each customer class listed below:

| <b>Customer class</b>     | <b>Proposed percentage increase</b> | <b>Proposed dollar increase</b> |
|---------------------------|-------------------------------------|---------------------------------|
| Residential               | 1.6 percent                         | \$710,000                       |
| Commercial and Industrial | 2.0 percent                         | \$630,000                       |
| Irrigation                | 1.8 percent                         | \$180,000                       |
| Streetlighting            | 1.6 percent                         | \$10,000                        |
| <b>Overall</b>            | <b>1.8 percent</b>                  | <b>\$1,530,000</b>              |
