

## **Food Service**

Pacific Power provides incentives for many types of energy-efficient technologies. Please read the following sections carefully to ensure that you follow the appropriate steps for securing your incentive. Equipment may be subject to inspection prior to incentive payment.

Incentives for additional measures may be available. For more information about the FinAnswer Express program, eligibility requirements, incentive levels or other general inquiries, contact your local equipment dealer or Pacific Power. You can visit the program website at [pacificpower.net/wattsmart](http://pacificpower.net/wattsmart) and submit your inquiry online, or you can call our energy services hotline at 1-800-222-4335 .

### **RESIDENTIAL DISHWASHER**

**Measure description:** Residential dishwashers are designed to clean and sanitize dishes, utensils and cookware. ENERGY STAR<sup>®</sup> qualified residential dishwashers, on average, are 10 percent more efficient than non-qualified models.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** Equipment must be purchased and installed in a business that uses electrically heated domestic hot water, and meet all other program terms and conditions. Models with electric or gas booster heaters are eligible for incentives. Incentives are available for qualified dishwashers listed on the Pacific Power Home Energy Savings website. Dishwasher models must be on the qualified list on the date of purchase.

For a list of qualified equipment or more information, please visit: [www.homeenergysavings.net](http://www.homeenergysavings.net)

A list of qualifying products is available on the Home Energy Savings website at: [http://homeenergysavings.net/Downloads/Qualified\\_WADishwashers.pdf](http://homeenergysavings.net/Downloads/Qualified_WADishwashers.pdf)

#### **Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Incentive</u>
DWERES	\$ 20 / unit*

\*Incentive will be paid at \$/unit as listed in the Home Energy Savings program. See website for more details: [www.homeenergysavings.net](http://www.homeenergysavings.net)

## COMMERCIAL DISHWASHER

**Measure description:** Commercial dishwashers are designed to clean and sanitize dishes, utensils and cookware. High efficiency commercial dishwashers on average are 25 percent more efficient when compared with standard-efficiency models and can significantly reduce annual energy costs.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** Equipment must be purchased and installed, and meet all other program terms and conditions. Incentives are available for equipment that is ENERGY STAR qualified. Dishwasher must use electrically heated domestic hot water. Models with electric or gas booster heaters are eligible for incentives.

For a list of qualified equipment visit: [www.energystar.gov](http://www.energystar.gov)

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Efficiency requirements</u>	<u>Equipment category</u>	<u>Incentive</u>
DWECUN	ENERGY STAR qualified	Under Counter	\$500 / unit
DWECSR		Stationary Rack, Single Tank, Door Type	\$1,000 / unit
DWESTC		Single Tank Conveyor	\$1,500 / unit
DWEMTC		Multiple Tank Conveyor	\$2,000 / unit

## ELECTRIC INSULATED HOLDING CABINET

**Measure description:** Commercial insulated holding cabinets are designed to hold hot food at a specified temperature. High-efficiency electric holding cabinets are 65 percent more efficient than standard units and can significantly reduce annual energy costs.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the Tier 2 incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that utilizes  $\leq 20$  watts/ cubic foot (tested in accordance with ASTM F1496).

For a list of Tier 1 qualified equipment visit: [www.energystar.gov](http://www.energystar.gov)

\*Tier 1 incentives were available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012, please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Efficiency requirements</u>	<u>Equipment category</u>	<u>Incentive</u>
EIHCA1	Tier 1: ENERGY STAR Qualified	Full Size ( $\geq 28$ ft <sup>3</sup> )	\$300 / unit
EIHCA2		3/4 Size ( $\geq 13$ ft <sup>3</sup> & $< 28$ ft <sup>3</sup> )	\$250 / unit
EIHCA3		1/2 Size ( $< 13$ ft <sup>3</sup> )	\$200 / unit
EIH1T2	Tier 2: W/ft3 $\leq 20$ W	Full Size ( $\geq 28$ ft <sup>3</sup> )	\$600 / unit
EIH2T2		3/4 Size ( $\geq 13$ ft <sup>3</sup> & $< 28$ ft <sup>3</sup> )	\$500 / unit
EIH3T2		1/2 Size ( $< 13$ ft <sup>3</sup> )	\$400 / unit

## ELECTRIC COMMERCIAL STEAM COOKER

**Measure description:** Commercial steam cookers, also referred to as a compartment steamers, have one or more food steaming compartments. High-efficiency steam cookers are up to 50 percent more efficient compared to standard-efficiency units and can significantly reduce annual energy costs.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for Tier 2 incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that has a minimum heavy load efficiency of 65 percent and an Idle Energy Rate  $\leq 0.23$  kW (tested in accordance with ASTM F1496). Models with **3, 4, 5, and 6-pan size** qualify and may include countertop models, wall-mounted models and floor-models mounted on a stand, pedestal or cabinet-style base.

For a list of Tier 1 qualified equipment visit: [www.energystar.gov](http://www.energystar.gov)

\*Tier 1 Incentives were available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012, please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Equipment Category</u>	<u>Incentive</u>
STMCKR	ENERGY STAR Qualified	3, 4, 5, and 6-pan sizes	\$ 750 / unit
STMCK2	1. Minimum Heavy Load Efficiency of 65% 2. Idle Energy Rate $\leq 0.23$ kW	3, 4, 5, and 6-pan sizes	\$ 840 / unit

## ELECTRIC CONVECTION OVEN

**Measure description:** Commercial convection ovens have a motorized fan or blower that circulates hot air uniformly and continuously throughout the oven. Convection ovens result in faster, more even cooking processes relative to standard or natural convection ovens.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentive listed below, equipment must be purchased and installed, and meet all other program terms and conditions. Incentives are available for equipment meeting or exceeding a minimum cooking efficiency of 70 percent (tested in accordance with ASTM F1496). Please confirm with your vendor that the equipment meets this required standard prior to purchase.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Efficiency requirements</u>	<u>Incentive</u>
CONOVE	Minimum cooking efficiency of 70%	\$ 350 / unit

## ELECTRIC GRIDDLE

**Measure description:** An electric griddle is a plate heated from underneath by an electric element. High-efficiency commercial griddles transfer heat more efficiently and are about 10 percent more efficient than standard-efficiency units.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* and meet all other program terms and conditions. Incentives are available for equipment that is ENERGY STAR qualified (Tier I or Tier 2). Please confirm with your vendor that the equipment meets this required standard prior to purchase.

For a list of qualified equipment visit: [www.energystar.gov](http://www.energystar.gov)

\*Incentives may be available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012, please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Incentive</u>
GRIDT1	ENERGY STAR Tier 1	\$ 250/ unit
GRIDT2	ENERGY STAR Tier 2	\$ 350/ unit

## ELECTRIC COMBINATION OVEN

**Measure description:** Combination ovens perform the functions of both regular ovens and steam cookers, either separately or simultaneously. High-efficiency electric combination ovens are about 20 percent more efficient when compared to standard-efficiency units and can significantly reduce annual energy costs.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentive listed below, equipment must be purchased and installed, and meet all other program terms and conditions. For equipment purchased on or after February 24, 2012\* incentives are available for equipment meeting or exceeding both the minimum Heavy Load efficiency of 70 percent and an Idle Energy Rate ≤ 3.5 kW (tested in accordance with ASTM F1639). Please confirm with your vendor that the equipment meets this required standard prior to purchase.

\*Incentives may be available for equipment purchased prior to February 24, 2012. For efficiency requirements regarding equipment purchased prior to February 24, 2012, please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Efficiency requirements</u>	<u>Incentive</u>
COMOVE	1. Minimum Heavy Load Efficiency of 70% 2. Idle Energy Rate ≤ 3.5 kW.	\$ 1,000 / unit

## ELECTRIC COMMERCIAL FRYER

**Measure description:** Commercial fryers heat oil used to cook food. High-efficiency fryers reduce heat loss and require less energy when idle. High-efficiency fryers are up to 30 percent more efficient than standard-efficiency units and can significantly reduce annual energy costs.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for Tier 2 incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that has a minimum cooking efficiency of 86.6 percent and an Idle Energy Rate  $\leq$  772 Watts (tested in accordance with ASTM F1496).

For a list of qualified equipment visit: [www.energystar.gov](http://www.energystar.gov)

\*Tier 1 incentives were available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012, please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment Code</u>	<u>Efficiency Requirements</u>	<u>Incentive</u>
COMFRE (Tier 1)	ENERGY STAR qualified	\$ 200 / unit
COMFR2 (Tier 2)	1. Minimum cooking efficiency of 86.6% 2. Idle Energy Rate $\leq$ 772 Watts	\$300 / unit

## COMMERCIAL ICE MACHINES (AIR-COOLED ONLY)

**Measure description:** Commercial ice machines combine a condensing unit and ice-making unit to produce ice. High-efficiency commercial ice machines on average are 15 percent more efficient when compared to standard efficiency units and can significantly reduce annual energy costs.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentives listed below, equipment must be purchased and installed, and meet all other program terms and conditions. Two tiers of incentives are available: first, equipment that is ENERGY STAR qualified and second, equipment that is Consortium for Energy Efficiency (CEE) Tier 3 qualified.

For a list of qualified equipment visit: [www.energystar.gov](http://www.energystar.gov) and [www.cee1.org](http://www.cee1.org)

### Items to submit with application:

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Efficiency requirement</u>	<u>Equipment category</u>	<u>Incentive</u>
IMAST1 (Tier 1)	ENERGY STAR qualified	<500 lbs/day	\$125 / unit
IMAST2 (Tier 2)	CEE Tier 3 qualified		\$250 / unit
IMALT1 (Tier 1)	ENERGY STAR qualified	≥500 lbs/day	\$150 / unit
IMALT2 (Tier 2)	CEE Tier 3 qualified		\$400 / unit

## RESIDENTIAL REFRIGERATOR

**Measure description:** High-efficiency refrigerators are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified refrigerators, on average, are 20 percent more efficient than the minimum federal standard, resulting in considerable energy savings.

**Applicability:** New construction and retrofit installations are eligible for incentives via a post-purchase application.

**Equipment eligibility:** Equipment must be purchased and installed in a business, and meet all other program terms and conditions. Incentives are available for qualified refrigerators listed on the Pacific Power Home Energy Savings website. Refrigerator models must be on the qualified list on the date of purchase.

For a list of qualified equipment or more information, please visit: [www.homeenergysavings.net](http://www.homeenergysavings.net)

A list of qualifying products is available on the Home Energy Savings website at:  
[http://www.homeenergysavings.net/Downloads/Qualified\\_WARefrigerators.pdf](http://www.homeenergysavings.net/Downloads/Qualified_WARefrigerators.pdf)

### Items to submit with application:

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Incentive</u>
RRCFES	\$ 20 / unit*

\*Incentive will be paid at \$/unit as listed in the Home Energy Savings program. See website for more details:  
[www.homeenergysavings.net](http://www.homeenergysavings.net)

## COMMERCIAL GLASS-DOOR REFRIGERATORS

**Measure description:** High-efficiency glass-door refrigerators are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified refrigerators, on average, are 20 percent more efficient than the minimum federal standard, resulting in considerable energy savings.

**Applicability:** New construction and retrofit installations of both chest configuration and vertical glass-door refrigerators are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* meet all other program terms and conditions, and be an ENERGY STAR qualified commercial refrigerator. The incentive amount is determined by the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

For further information on glass-door refrigerators visit: [www.energystar.gov](http://www.energystar.gov)

\*Incentives may be available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012 please contact us.

### Items to submit with application:

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required for glass-door refrigerators. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment code</u>	<u>Measure description</u>	<u>Efficiency requirement</u>	<u>Equipment size (ft<sup>3</sup>)</u>	<u>Incentives</u>
CMGDRF	Commercial Glass-Door Refrigerator	ENERGY STAR qualified	$0 < V < 15$	\$ 100 / unit
			$15 \leq V < 30$	\$ 125 / unit
			$30 \leq V < 50$	\$ 150 / unit
			$V \geq 50$	\$ 175 / unit
CMGCHR	Chest Configuration			\$ 75 / unit

## COMMERCIAL GLASS-DOOR FREEZER

**Measure description:** High-efficiency glass-door freezers are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified freezers, on average, are 20 percent more efficient than the minimum federal standard, resulting in considerable energy savings.

**Applicability:** New construction and retrofit installations of both chest configuration and vertical glass-door freezers are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentives listed below, equipment must be purchased and installed on or after February 24, 2012, meet all other program terms and conditions, and be an ENERGY STAR qualified commercial freezer. The incentive amount is determined by the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

For further information on glass-door freezers and a list of qualifying equipment, please visit:

[www.energystar.gov](http://www.energystar.gov)

### Items to submit with application:

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required for glass-door freezers. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment code</u>	<u>Measure description</u>	<u>Efficiency requirement</u>	<u>Equipment size (ft<sup>3</sup>)</u>	<u>Incentives</u>
CMGDFZ	Commercial Glass-Door Freezer	ENERGY STAR qualified	0 < V < 15	\$ 300 / unit
			15 ≤ V < 30	\$ 325 / unit
			30 ≤ V < 50	\$ 375 / unit
			V ≥ 50	\$ 800 / unit
CMGCHF	Chest Configuration		All	\$ 100 / unit

## COMMERCIAL SOLID-DOOR REFRIGERATOR

**Measure description:** High-efficiency solid-door refrigerators are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified refrigerators, on average, are 20 percent more efficient than the minimum federal standard, resulting in considerable energy savings.

**Applicability:** New construction and retrofit installations of both chest configuration and vertical solid-door refrigerators are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* meet all other program terms and conditions, and be an ENERGY STAR qualified commercial refrigerator. The incentive levels are determined by equipment size based on the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

For further information on glass-door freezers and a list of qualifying equipment, please visit:

[www.energystar.gov](http://www.energystar.gov)

\*Incentives may be available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012 please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required for solid-door refrigerators. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment code</u>	<u>Measure description</u>	<u>Efficiency requirement</u>	<u>Equipment size (ft<sup>3</sup>)</u>	<u>Incentives</u>
SDREFE	Commercial Solid-Door Refrigerator	ENERGY STAR qualified	0 < V < 15	\$ 50 / unit
			15 ≤ V < 30	\$ 75 / unit
			30 ≤ V < 50	\$ 100 / unit
			V ≥ 50	\$ 125 / unit
SDCHRF	Chest Configuration		All	\$ 75 / unit

## COMMERCIAL SOLID-DOOR FREEZER

**Measure description:** High-efficiency solid-door freezers are better insulated and contain more efficient refrigeration systems. ENERGY STAR qualified freezers, on average, are 20 percent more efficient than the minimum federal standard, resulting in considerable energy savings.

**Applicability:** New construction and retrofit installations of both chest configuration and vertical solid-door freezers are eligible for incentives via a post-purchase application.

**Equipment eligibility:** To qualify for the incentives listed below, equipment must be purchased and installed on or after February 24, 2012\* meet all other program terms and conditions, and be an ENERGY STAR qualified commercial freezer. The incentive levels are determined by equipment size based on the interior volume (V), as calculated by the Association of Home Appliance Manufacturers (AHAM) Standard ANSI/AHAM HRF-1-2004.

For further information on glass-door freezers and a list of qualifying equipment, please visit:

[www.energystar.gov](http://www.energystar.gov)

\* Incentives may be available for equipment purchased prior to February 24, 2012. For incentive information regarding equipment purchased prior to February 24, 2012 please contact us.

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required for solid-door freezers. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment code</u>	<u>Measure description</u>	<u>Efficiency requirement</u>	<u>Equipment size (ft<sup>3</sup>)</u>	<u>Incentives</u>
SDFRZE	Commercial Solid-Door Freezer	ENERGY STAR qualified	0 < V < 15	\$ 150 / unit
			15 ≤ V < 30	\$ 175 / unit
			30 ≤ V < 50	\$ 200 / unit
			V ≥ 50	\$ 300 / unit
SDCHFZ	Chest Configuration		All	\$ 150 / unit

## REFRIGERATED BEVERAGE VENDING MACHINE

**Measure description:** Commercial refrigerators that cool bottles or canned beverages and dispense the bottles or canned beverage on payment. High-efficiency refrigerated beverage vending machines are better insulated, contain more efficient refrigeration systems and use timers/sensors to manage the machine’s systems, resulting in greater energy savings.

**Applicability:** New construction and retrofit installations of refrigerated beverage vending machines purchased and installed prior to August 31, 2012 are eligible for incentives via a post-purchase application.

**Equipment eligibility:** Equipment must be purchased and installed on or after February 24, 2012, meet all other program terms and conditions, and use less than the Maximum Daily Energy Consumption (MDEC), tested in accordance with applicable ASTM, as outlined below:

Class A: A refrigerated bottled or canned beverage vending machine that is fully cooled, and is not a combination vending machine

$$\text{Class A MDEC} = 0.055 \times V + 2.56$$

Class B: Any refrigerated bottled or canned beverage vending machine that is not considered to be Class A, and is not a combination vending machine

$$\text{Class B MDEC} = 0.073 \times V + 3.16$$

V=Volume

**Items to submit with application:**

1. Dated sales receipt/invoice for the installed equipment.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer’s equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification required? No.** Prequalification is recommended, but not required for refrigerated beverage vending machine. Prequalification is required for equipment that is not listed in the incentive tables.

<u>Equipment code</u>	<u>Measure description</u>	<u>Incentives</u>
BEVMAC	High Efficiency Refrigerated Beverage Vending Machine	\$ 150 / Unit

## LED CASE LIGHTING (RETROFIT ONLY)

**Measure description:** Fixtures within refrigerated reach-in display cases are used to display refrigerated products. Replacing existing fluorescent lighting with energy-efficiency LED light bars reduces total lighting wattage and heat gain in the refrigerated space.

**Applicability:** Retrofit projects only may be eligible for incentives. LED technology must replace fluorescent lamps.

**Equipment eligibility:** Equipment must be purchased and installed, and meet all other program terms and conditions.

### Items to submit with the incentive application:

1. Dated sales receipt/invoice for installed equipment.
2. A copy of the product specifications.
3. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification Required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Measure description</u>	<u>Incentive</u>
LEDCLR	LED Case Lighting	\$10/Linear Foot

## REFRIGERATED CASE OCCUPANCY SENSOR (RETROFIT ONLY)

**Measure description:** Refrigerated case occupancy sensors provide energy savings by turning off lighting and managing product temperature efficiently when the area surrounding the case is unoccupied.

**Applicability:** Retrofit projects only may be eligible for incentives. Equipment must be installed in an existing refrigerated case with existing LED lighting or as part of an LED case lighting retrofit.

**Equipment eligibility:** Occupancy sensor control equipment must be purchased and installed, and meet all other program terms and conditions. This measure is intended for refrigerated cases only.

### Items to submit with application:

1. Dated sales receipt/invoice with install date and retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate.
3. Manufacturer's equipment specification sheet.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

**Prequalification Required? No.** Prequalification is recommended, but not required to receive incentives. Contact your vendor or Pacific Power for more information.

<u>Equipment code</u>	<u>Measure description</u>	<u>Incentive</u>
REFOCS	Refrigerated Case Occupancy Sensor	\$1 / controlled linear foot of LED lighting

## **FOOD SERVICE MEASURES DISCONTINUED FROM THE PROGRAM**

The following technologies are no longer eligible to receive incentives through the FinAnswer Express program.

As of February 24, 2012 incentives are no longer available for:

- Refrigerated Display or Vending Machine Occupancy Sensors
