

Appliances

Pacific Power provides incentives for many types of energy efficient technologies. Please read the following sections carefully to ensure that you follow the appropriate steps for securing your incentive.

Incentives for additional measures may be available. For more information about the FinAnswer Express program, eligibility requirements, incentive levels or other general inquiries, contact your local equipment dealer or Pacific Power. You can visit the program website at pacificpower.net/wattsmart and submit your inquiry online, or you can call our **energy services hotline** at 1-800-222-4335.

CEILING FANS (RESIDENTIAL USED IN A BUSINESS)

Measure Description: A ceiling fan circulates air throughout a space, resulting in a more uniform temperature. ENERGY STAR qualified ceiling fans with lighting kits containing compact fluorescent lamps (CFLs) save energy compared to ceiling fans with incandescent lamps.

Applicability: New construction and retrofit installations are eligible for incentive via a post-purchase application process.

Equipment Eligibility: Equipment must be purchased and installed in a business, and meet all other program terms and conditions. Incentives are available for equipment that meets or exceeds the Pacific Power's Home Energy Savings program efficiency requirements. Ceiling fans and lighting kits must be ENERGY STAR[®] qualified.

A list of qualifying products is available on the Home Energy Savings website at:
<http://www.homeenergysavings.net/Washington/lighting/fans.html>

Items to submit with a FinAnswer Express incentive application:

1. Dated sales receipt/invoice with retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other indentifying information as appropriate.
3. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment code</u>	<u>Minimum Efficiency Requirement</u>	<u>Incentive</u>
CELFAN	ENERGY STAR [®] qualified	\$ 20 / unit

HIGH-EFFICIENCY CLOTHES WASHER (COMMERCIAL)

Measure Description: A commercial clothes washer is used in a Laundromat or other commercial laundry facility and often is a coin-operated machine. Clothes washers that have earned the ENERGY STAR rating are more efficient than models that simply meet the federal minimum standard for energy efficiency.

Applicability: New construction and retrofit installations are eligible for an incentive via a post-purchase application process.

Equipment Eligibility: Equipment must be purchased and installed in a business with electric water heating, and meet all other program terms and conditions. Incentives are available for equipment that is ENERGY STAR® or Consortium for Energy Efficiency (CEE) Tier 2 qualified.

For a list of qualified equipment visit: www.energystar.gov and www.cee1.org

A list of qualifying products is available on the ENERGY STAR® website at:
http://www.energystar.gov/index.cfm?fuseaction=clotheswash.display_commercial_cw

A list of qualifying products is available on the CEE website at:
<http://www.cee1.org/com/cwsh/cwshspec.pdf>

Items to submit with a FinAnswer Express incentive application:

1. Dated sales receipt/invoice with retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other indentifying information as appropriate.
3. Serial number of washer.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment code</u>	<u>Minimum Efficiency Requirement</u>	<u>Incentive</u>
CWCMT1	ENERGY STAR® qualified	\$ 150/ unit
CWCMT2	CEE Tier 2 qualified	\$ 200 / unit

HIGH-EFFICIENCY CLOTHES WASHERS (RESIDENTIAL USED IN BUSINESS)

Measure Description: A residential clothes washer is a consumer product designed to clean clothes in a single family residence. Clothes washers that have earned the ENERGY STAR rating are more efficient than models that simply meet the federal minimum standard for energy efficiency.

Applicability: New construction and retrofit installations are eligible for an incentive via a post-purchase application process.

Equipment Eligibility: Equipment must be purchased and installed in a business with electric water heating, and meet all other program terms and conditions. Incentives are available for equipment that meets or exceeds the Pacific Power’s Home Energy Savings program efficiency requirements. Clothes washers must have a Modified Energy Factor (MEF) of at least 1.72 to be eligible.

A list of qualifying products is available on the Home Energy Savings website at:
<http://www.homeenergysavings.net/Washington/appliances/clotheswashers.html>

Items to submit with a FinAnswer Express incentive application:

1. Dated sales receipt/invoice with retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other indentifying information as appropriate.
3. Serial number of washer.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment code</u>	<u>Minimum Efficiency Requirement</u>	<u>Incentive</u>
CWCMT1	MEF 1.72 – 1.99	\$ 50 / unit
CWCMT2	MEF ≥ 2.0	\$ 100 / unit

ELECTRIC WATER HEATER (RESIDENTIAL USED IN BUSINESS)

Measure Description: An electric water heater uses electricity to heat potable water for use outside the heater. Energy-efficient storage water heaters have higher levels of insulation around the tank, substantially reducing standby heat loss.

Applicability: New construction and retrofit installations are eligible for incentive via a post-purchase application process.

Equipment Eligibility: Equipment must be purchased and installed at a business, and meet all other program terms and conditions. Incentives are available for equipment that meets or exceeds the Pacific Power’s Home Energy Savings program efficiency requirements. The capacity of the residential electric water heater must be 40 gallons or larger and have an Energy Factor (EF) of 0.93 or higher.

A list of qualifying products is available on the Home Energy Savings website at: <http://www.homeenergysavings.net/Washington/appliances/waterheaters.html>

Items to submit with a FinAnswer Express incentive application:

1. Dated sales receipt/invoice with retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other indentifying information as appropriate.
3. Serial number of water heater.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment code</u>	<u>Minimum Efficiency Requirement</u>	<u>Incentive</u>
WHERES	EF ≥ 0.93	\$ 50/ unit

ROOM AIR CONDITIONER (RESIDENTIAL USED IN BUSINESS)

Measure Description: A room air conditioner is a consumer product designed for mounting in a window or through the wall in order to deliver conditioned air to an enclosed space. ENERGY STAR qualified models use about 10% less energy than conventional models.

Applicability: New construction and retrofit installations are eligible for incentive via a post-purchase application process.

Equipment Eligibility: Equipment must be purchased and installed at a business, and meet all other program terms and conditions. Incentives are available for equipment that meets or exceeds the Pacific Power’s Home Energy Savings program efficiency requirements. Room air conditioners must be ENERGY STAR® qualified.

A list of qualifying products is available on the Home Energy Savings website at:
<http://www.homeenergysavings.net/Washington/appliances/roomac.html>

Items to submit with application:

1. Dated sales receipt/invoice with retailer/contractor name, address and phone number.
2. Itemized listing of quantity, description, manufacturer, model number and other indentifying information as appropriate.
3. Serial number of air conditioner.
4. A current copy of the Pacific Power utility bill for the address where the item(s) are installed.

Prequalification Required? No.

<u>Equipment Code</u>	<u>Minimum Efficiency Requirement</u>	<u>Incentive</u>
RACRES	ENERGY STAR® qualified	\$ 30/ unit
