

Incentives for agricultural irrigation retrofits

Irrigation Measure	Replace	With	Limitations	Customer Incentive
Sprinkler Pressure Regulators	Worn or faulty regulator	New pressure regulator	Must be same design pressure or less	\$2.75/each
Rotating, Spray-Type Sprinklers or Low-Pressure Sprinklers	Worn rotating, spray-type, low-pressure or impact sprinklers	New rotating, spray-type or low-pressure sprinklers	Must be same design flow or less	\$3 each (up to 70% of cost)
New or Rebuilt Impact Sprinklers	Worn or leaking impact sprinkler	New or rebuilt impact sprinkler	--	\$3 each (up to 70% of cost)
Sprinkler Nozzles	Existing worn nozzles	New brass or plastic nozzles	Must be same design flow or less	\$0.25 each
Flow-Controlling Type Nozzles	Existing worn flow-controlling type nozzles	New flow-controlling type nozzles	Must be same design flow or less	\$1.50 each
Drains and Gaskets for Wheel Lines, Hand Lines, Pivots, Linears or Portable Main Lines	Worn and leaking drains and gaskets	New drains and gaskets. (Also includes seals and riser caps – dome discs – for valve openers)	--	\$1 each
Gooseneck Elbow with Drop Tube or Boomback	Worn or leaking gooseneck elbow with drop tube or boomback	New gooseneck elbow with drop tube or boomback	--	\$1/outlet
Repair Leaking Wheel Lines, Hand Lines or Portable Main Lines	Worn and leaking pipe connections or sections	Cut and pipe press or weld repair of leaking pipe connections or sections	Invoice must show number of joints or leaks repaired	\$8/joint
New or Rebuilt Wheel-Line Leveler	Worn or faulty wheel-line leveler	New or rebuilt wheel-line leveler	--	\$0.75 each
Center Pivot Base Boot Gasket	Worn and leaking center pivot base boot gasket	New center pivot base boot gasket	--	\$80 each
Wheel-Line Feed Hose	Worn or leaking wheel-line feed hose	New or rebuilt wheel-line feed hose	--	\$15 each
Wheel-Line Hubs (for Thunderbird type wheel lines)	Worn or leaking hub	New wheel-line hub	--	\$12 each
Irrigation Pump VFD	--	Add VFD to existing irrigation pump motor	--	See note 4

Notes for agricultural irrigation incentives:

1. Irrigation measures that meet the replacement requirements listed in the above table may qualify for the listed incentive. Except for the irrigation pump VFD measure, fixed in place systems are not eligible for the incentives listed above.
2. All equipment listed in the table will be eligible for incentives only in replacement or retrofit projects.
3. For measures where the incentive is limited to 70% of energy efficiency measure costs, energy efficiency measure costs are subject to Pacific Power approval.
4. Incentives are paid at \$0.12/kwh annual energy savings. Irrigation pump VFD annual energy savings subject to approval by Pacific Power.

VFD = Variable Frequency Drive

Let's turn the answers on.
