
I. Metering – General

Company will install and maintain all meters and other equipment necessary for measuring the electric power and energy used by Consumer and will inspect such installations to maintain a high standard of accuracy.

Company will, without charge, make a test of the accuracy of registration of a meter upon the request of the Consumer or their ESS, provided that the Consumer does not request such a test more frequently than once in twelve (12) months. If more than one requested test is made in twelve (12) months, the Company may charge the Consumer a meter test charge as specified in Schedule 300. If results of the test show that such meter is outside the 2% accepted tolerance standard under normal operating conditions, the Company may not charge the Consumer for the subsequent test(s).

An accurate record will be kept by Company of all meter readings, and such record shall be the basis for determination of all bills rendered for metered service.

If any meter shall fail to register correctly the amount of electric power or energy used by Consumer, the amount of such use will be estimated by Company from the best available information.

Separate premises, even though owned by the same Consumer, will not be supplied through the same meter, except as may be specifically provided for in the applicable rate schedule.

Service to multi-unit residential buildings where residency is permanent in nature and constructed subsequent to January 1, 1979, shall be provided only if it is possible for Company to directly meter and bill the occupant of each dwelling unit, where the units contain permanent facilities for sleeping, bathing, and cooking. Multiple residential units where the units do not have permanent facilities for sleeping, bathing and cooking, which are supplied through a common meter, may not be sub-metered and will be classified as nonresidential service.

When multiple meters are installed at a location with multiple units, it is the developer/owner's responsibility to permanently, and correctly, label each meter base for the associated service address. Company may check such meter installations to verify they are correctly labeled. Company will charge the Meter Verification Fee, set forth in Schedule 300, to the developer/owner for each meter installation checked. In the event all meters are labeled correctly for each unit, Company will waive the Meter Verification Fee for that building.

When a complaint is received from a Consumer, landlord or governmental agency of possible switched meters, Company will check such meter installations to verify that they are correctly labeled. Company will charge the Meter Verification Fee, as set forth in Schedule 300 to the developer/owner for each meter installation checked. If all meters at a building are correctly labeled for each unit, Company will waive the Meter Verification Fees for that building. If a Consumer or landlord requests more than one meter installation verification within any 12-month period, the Company will require the requesting party to pay the Meter Verification Fee as set forth in Schedule 300, in advance. If Company determines that the meter is switched or mislabeled, it will refund the deposit to the Consumer and Company will charge the Meter Verification Fee set forth in Schedule 300, to the developer/owner for each meter installation checked.

If a developer/owner or landlord requests Company to verify or certify that each meter base is labeled correctly, including when locations with multiple units are sold, Company will charge the party requesting such verification or certification the Meter Verification Fee, as set forth in Schedule 300.

(continued)

II. Metering – Direct Access**A. Direct Access Meter Requirement**

The Company's metering standard for Direct Access and Standard Offer Consumers is for remotely interrogated interval metering equipment. Direct Access and Standard Offer Consumers that do not have installed remotely interrogated interval meters may be metered using other approved Company metering equipment. In the absence of a meter installation backlog, the Company will endeavor to install standard meter equipment within 30 days of acceptance of a DASR or receipt of written or electronic authorization for Standard Offer Service. In the event of a backlog, the Company will notify the Consumer or Consumer's ESS and provide an estimate of the installation date. The Company will provide metering equipment for all Consumers.

B. Meter Charge

Direct Access and Standard Offer Consumers taking Company-specified metering services are obligated to pay the direct access metering charges stated in Schedule 300. Consumers taking non-standard metering services as described in Section II.E of this Rule are obligated to pay the metering charges specified in the applicable contract.

C. Standard Services

The Company will provide Standard Metering Services without charge to Large Nonresidential Consumers and will provide Standard Metering Services at a charge stated in Schedule 300 to Small Nonresidential Consumers. Standard Metering Services provided in conjunction with Direct Access and Standard Offer Service include:

1. An interval meter equipped with a communication modem.
2. Installation, removal, testing and maintenance of the meter.
3. Remote communication equipment. Calling fees will be passed through to the Consumer.
4. The meter readings and the results provided to ESS' will be the same as those used as the basis for the Company's charges.
5. The standard method of communicating results of meter reading is specified in the standard form of the Company's ESS Service Agreement.

D. Standard Meter Capabilities

These include interval and remote communication functions.

E. Non-Standard Services

An ESS may request that the Company provide non-standard metering capabilities, functions or services.

1. Requests must be submitted to the Company in writing.
2. The Company will consider and approve or deny the request within ten (10) business days.
3. The Company will file with the Commission rates and charges for non-standard metering capabilities, functions or services within thirty (30) days of approving a request.

Terms and conditions for approved non-standard metering capabilities, functions or services will be incorporated into the Company's ESS Service Agreement.

(continued)

III. Non-Radio Frequency Metering Accommodation

A Customer may request an alternative to the Company's standard radio frequency meter installation from the following:

- a. Relocation of the Customer's meter base to a different location approved by the Company and the installation of a standard meter;
- b. Relocation of the Customer's meter base to a different location approved by the Company and the installation of a Company approved non-radio frequency meter;
- c. Exchanging a standard meter for a Company approved non-radio frequency meter.

A Customer selecting the option to relocate the meter base will be subject to the meter installation requirements of this regulation as well as Electric Service Rule 13. If the relocation requires a change in the existing service the Customer is responsible for charges to relocate the service including but not limited to the installation of conduit, trenching, obtaining easements, and any additional costs of removing and installing new facilities. If an acceptable meter location cannot be provided on the premises, the Customer's request will not be granted. The Customer must provide written permission of the owner stating the Customer has obtained the owner's permission to proceed with relocating the meter base.

Customers who elect to have a non-radio frequency meter will be subject to installation of the non-radio frequency meter as set forth in Schedule 300. All applicable fees will be paid prior to the installation of the non-radio frequency meter. The Schedule 300 charges for the installation is in addition to any aforementioned costs to relocate the Customer's service.

If a radio frequency meter is installed at the Customer's premise prior to January 1, 2018 and the Customer requests a non-radio frequency meter, the Customer will not be required to pay the installation charge in Schedule 300.

Only non-radio frequency meters approved, obtained, installed, and owned by the Company will be allowed. The Customer's request to replace a radio frequency meter with a non-radio frequency meter cannot be accommodated until an approved non-radio frequency meter can be obtained by the Company.

All Customers with a non-radio frequency meter shall be responsible to pay the monthly meter reading fee in Schedule 300, which will be included in the Customer's monthly service billing.

Customers with non-radio frequency meters may be excluded from participating in Company offered programs for which a standard radio frequency meter is required.

(continued)

III. Non-Radio Frequency Metering Accommodation (continued)

The Company may revoke the meter exchange accommodation of a non-radio frequency meter by reinstalling the Company's standard radio frequency meter for any of the following conditions:

- a. Meter tampering;
- b. Impeding Company access to the meter to obtain monthly meter readings, perform maintenance or to disconnect meter for non-payment of electric service; or
- c. Service has been disconnected for non-payment of electric service twice within a 12-month period.

Customers opting-out of the Company's standard metering and are metered by a non-standard meter and are otherwise eligible for service under Schedule 4 Residential Service or have a meter without a demand register and are eligible for service under Schedule 23 General Service, Small Non-Residential may contract with the Company for a triannual meter reading schedule. Meter readings will be three times a year and monthly billings between meter readings will be based on estimated usage assumptions. At the discretion of the Company, meter readings may be more frequent without any additional charge to the Customers. Customers are required to pay the triannual meter reading fee as stated in Schedule 300, and enroll in the Company's Equal Payment Plan as described in Rule 10 of this tariff.

The Company reserves the right to remove a Customer from the triannual read program for any of the following reasons:

The Customer is disconnected for nonpayment of bills,
The Customer fails to abide by the terms of the Equal Payment Plan, or
Safe and unobstructed access is not provided to the Company.

This option is not available for service in conjunction with net metering or time-of-use schedules.
