**THANK YOU**  
for making a commitment to renewable energy through Blue Sky.  
Your purchase helps make a difference.

When you enroll in Blue Sky, Pacific Power purchases renewable energy certificates equal to your Blue Sky purchase; this guarantees that renewable energy was produced and delivered to the grid, which helps reduce the need for nonrenewable electricity production in the region where the renewable energy facility is located. For every unit of renewable electricity generated, an equivalent amount of renewable energy certificates are produced. Your purchase helps build a market for renewable energy and may have other local and global environmental benefits.
