# Clean Energy Plan Special Session on Engagement

LC 82 Order 24-073:

#8 Direct PacifiCorp to work collaboratively with Staff, stakeholders, peer utilities, environmental justice groups, and CBIAGs in a dedicated working group to develop clear, actionable improvements to community and stakeholder engagement in subsequent IRP/CEPs by December 31, 2024. If PacifiCorp cannot complete this effort by this timeline, PacifiCorp should provide a detailed status update and explanation of how it will ensure that remaining issues are resolved as soon as practicable, inclusive of the perspectives of peer utilities and the utilities' CBIAGs.

## Objectives

1. Share Pacific Power's approach to engagement
2. Review engagement survey highlights
3. Solicit feedback from participants
4. Align on next steps

# Engagement Timeline: Order 24-073

## October

- Share updates on Order 24-073 at CEP Engagement Series
- Field Engagement Survey

## November

- Analyze results of survey
- Facilitate working session on engagement
- Meet with peer utilities on engagement

## December

- Prioritize actionable improvements from survey & working session
- File updates to engagement plan

# Pacific Power's Engagement Ecosystem

# Engagement Opportunities

Pacific Power offers various opportunities for community engagement to foster a greater understanding of our communities and how we serve them and allow for input into PacifiCorp's planning processes. These engagement opportunities include:

- Community Benefits and Impacts Advisory Group (CBIAG)
- Integrated Resource Plan (IRP) Public Input Meetings
- Distribution System Planning (DSP) Local Stakeholder Workshops
- Clean Energy Plan (CEP) Engagement Series
- Transportation Electrification (TE) Workshops
- Tribal Nations Engagement Series
- Wildfire Informational Series

# Engagement Hubs

PacifiCorp has also developed consolidated information hubs where interested parties can access details on engagement opportunities, stakeholder comments and company responses, key issues, definitions, and other related materials. These dedicated webpages for PacifiCorp’s CEP and Tribal Nations Engagement will host embedded links to resources and other information broken out by specific topics related to the CEP including DSP, the IRP process, and transportation electrification, and Tribal Nations Engagement.

# Flexibility in Engagement

**PacifiCorp is committed to advancing stakeholder engagement.**

PacifiCorp's stakeholder engagement spaces will continue to adapt to foster inclusion, accessibility, and collaboration for diverse participating audiences. Equity in planning and program implementation includes addressing barriers to participation and promoting equity and inclusion through partnerships and actions.

**Ways we aim to increase engagement by:**

- Focusing on accessibility (hybrid meetings, translation of resources for certain spaces, using plain language)
- Removing obstacles to participation within spaces (reimbursement for travel for advisory group members, technology support for Zoom, etc.)
- Open-door policy for connecting with subject-matter experts
- Post-meeting surveys for advisory groups

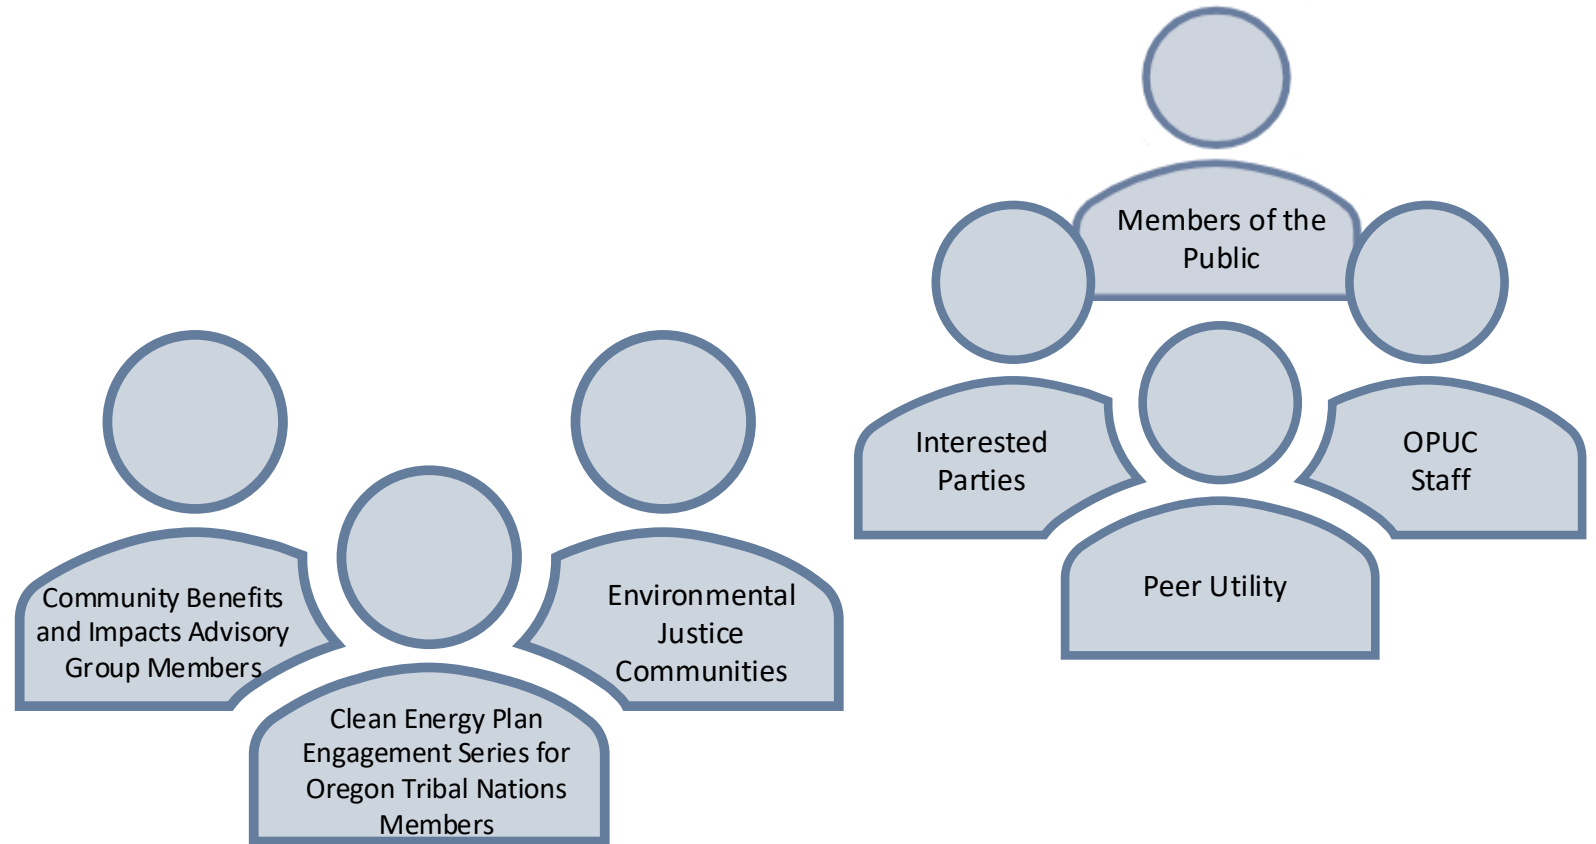

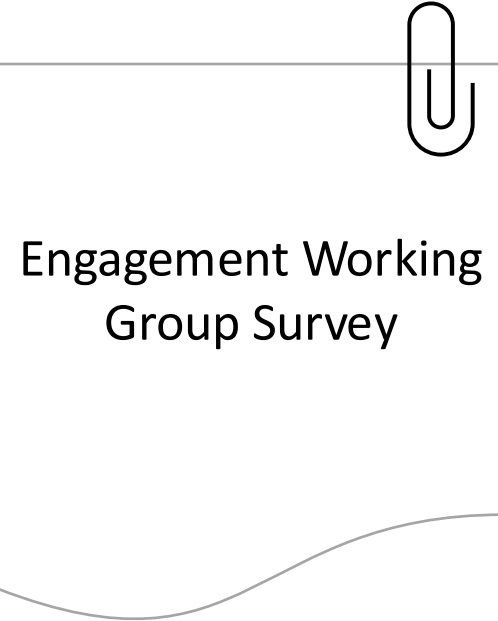

## 2024 Clean Energy Plan Engagement Survey Highlights

# Survey | Overview

- What are key priorities (or priority areas) for you?
- Which of the following Pacific Power engagement spaces do you participate in?
  - Participants were asked to rate their experiences in respective engagement spaces from very dissatisfied to very satisfied.
- How do you generally learn about Pacific Power's upcoming engagement meetings?
- Do you feel there are sufficient communications on engagement opportunities to support your participation?
- Are there communities or organizations that you feel need to be invited to Pacific Power's engagement meetings that are not currently participating? Please explain your answer.
- Do you feel that Pacific Power's engagement opportunities are accessible enough?
- What types of meetings can we design to best support your learning and participation?
- What additional accessibility considerations should Pacific Power keep top of mind when conducting external engagement?

## Accessibility

# Facilitated Discussion

# Discussion Guardrails

## Equity of Time

Facilitators will set a timer for each speaker before questions and dialogue. After each person who wants to speak has an opportunity, we will follow up with those who want to speak again.

## Open Dialogue

Speakers will be allowed to discuss a variety of engagement topics during their time. If a speaker would like the moderator to pull up a document, they can send a direct message with the link or image to Jeffrey, Tag, Morgan, or Zanya.

## Develop Clarity

After each speaker, there will be time set aside for those seeking clarity and those wanting to further specific dialogue. The facilitator will call on participants in the order that they have used the raise hand-feature.

## Be Present

We ask all participants in our dialogue session to be on camera (if possible) so we can create meaningful connections with those on the line.

## Be Respectful

We ask all participants to engage each other with respect, understanding that each person brings their unique and valuable lived experiences and expertise.

## Question 1

60 seconds

What do you believe is the biggest strength in Pacific Power's approach to engagement?

## Question 2

60 seconds

What do you believe is the biggest opportunity for Pacific Power to improve its engagement?
