

PROUDLY SERVING *California*

At Pacific Power, we work day-in and day-out to provide safe, reliable, low-cost energy to our customers. Through innovation and investments, we're building the energy grid of tomorrow to power the greatness of communities and businesses throughout the West. We're grateful for the opportunity to serve you.

Powering an innovative energy future

Pacific Power is making investments to mitigate wildfire risk and help safeguard our communities.

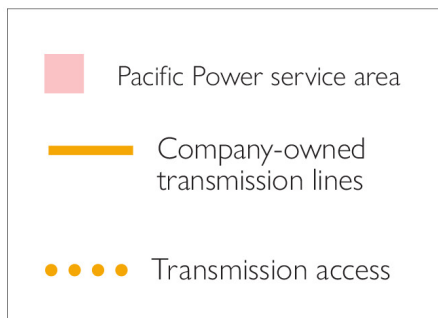

The company has spent \$500 million on wildfire mitigation and will invest another \$2 billion through 2026. Our advanced weather station network, meteorology team and innovative equipment all help reduce wildfire risk.

Keeping costs low for customers

The company has worked with industry partners to create a transformative energy market across the Western U.S.

Since 2014, the Western Energy Imbalance Market has saved PacifiCorp customers over \$847 million, including \$14.5 million for California customers.
