

### Large Business options (rate schedules 28, 30, 41L or 48)

**Block:** Support Western region wind (40%) and solar (60%) energy and help develop community-based, small-scale renewable energy projects for a fixed cost of \$1.95 per 100-kilowatt-hour block per month. There is no minimum length of participation for this option. You may cancel at any time. However, minimum block purchases and a minimum purchase period of one year are required to participate in our business partner program.

\$1.95 per block x \_\_\_\_\_ # of blocks purchased = \$ \_\_\_\_\_ per month

**QS:** Purchase at least 101 blocks of renewable energy per month in 100-kwh blocks for a minimum of one year. The more you buy, the less the per-unit (block) cost. Please see [pacificpower.net/blueskycalc](http://pacificpower.net/blueskycalc) for a calculator to determine exact costs.

\$ \_\_\_\_\_ per block x \_\_\_\_\_ # of blocks purchased (must be at least 101) = \$ \_\_\_\_\_ per month

For more details about the renewable energy you will support through your participation, please see our Product Content Labels available at [pacificpower.net/resources](http://pacificpower.net/resources).

### Blue Sky Business Partner Program

**Yes!** I want to participate in your business partner program and I agree to meet the purchase requirement of the recognition category\* I've selected for a minimum one-year term.

I authorize the use of my business name and participation level on your website, social media platforms, print advertising and in Blue Sky renewable energy program materials.

I DO NOT want to be mentioned in Pacific Power communications as a Blue Sky Business Partner.

**THANK YOU**  
for making a commitment to renewable energy through Blue Sky.  
Your purchase helps make a difference.

When you enroll in Blue Sky, Pacific Power purchases renewable energy certificates equal to your Blue Sky purchase; this guarantees that renewable energy was produced and delivered to the grid, which helps reduce the need for nonrenewable electricity production in the region where the renewable energy facility is located. For every unit of renewable electricity generated, an equivalent amount of renewable energy certificates are produced. Your purchase helps build a market for renewable energy and may have other local and global environmental benefits. For more information about RECs, please visit [pacificpower.net/bluesky](http://pacificpower.net/bluesky) or [green-e.org](http://green-e.org).
