Engagement Space Feedback

During the previous review cycle, we heard feedback across two categories.

Clarity of the report

- Help clarify LC82 and its impact on this report
- Provide a 1-2 page summary of the report
- Better define the purpose and add intentionality to the report

- Created an adapted summary to reflect the elements requested by advisors

Opportunities to include additional topics

- A glossary to help make it easier to navigate
- Inclusions of additional technical topics
- Additional data tables to tell the story
- Information on topics such as rates, wildfires, etc.
- Provide more information on the shared values of the CBIAG and emphasize the newness of the process

Changes made:

- Glossary added to define acronyms and energy specific terms

Additional feedback?

Engagement 2025 at a Glance

Engagement Space Considerations for 2025

There were a significant number of engagement spaces in 2024 across a variety of topics (CBIAG, Tribal Nations Engagement, Integrated Resource Planning, Clean Energy Planning, Distribution Systems Planning, Wildfire, etc.)

Pacific Power is committed to working with CBIAG members to enable participation in other engagement spaces.

To accomplish this, we will:

- Aim to streamline CBIAG meetings when other engagements occur throughout the month (i.e. combine meetings, or move to a virtual activity)
- Work with the CBIAG to ensure they feel comfortable participating in the other engagement spaces, potentially even creating pre-reads or other tools
- Provide opportunity to debrief on other engagement spaces within CBIAG meetings
