

Schedule No. A-25

GENERAL SERVICE
LESS THAN 20 KW

APPLICABILITY

Applicable to single-phase or three-phase alternating current electric service, at such voltage as the Utility may have available at the Customer's premises, for all electric service loads which have not registered 20 kW or more, more than once in any consecutive 18 month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. A written agreement shall be required for application of this Schedule to service furnished for intermittent, partial requirements or highly fluctuating loads.

Non-profit group living facilities taking service under this Schedule may be eligible for a twenty percent (20%) low-income rate discount on their monthly bill, if such facilities qualify to receive service under the terms and conditions of Schedule No. AL-6.

TERRITORY

Within the entire territory served in California by the Utility.

MONTHLY BILLING

The Monthly Billing shall be the sum of the Basic and Energy Charges.

Direct Access Customers shall have their Monthly Billing modified in accordance with Schedule No. EC-1 and Schedule No. TC-1. All Monthly Billings shall be adjusted in accordance with Schedule ECAC-94 and the applicable adjustment schedules that are a part of this tariff. Applicable adjustment schedules are specified in Schedule X-90.

Schedule No. A-25

GENERAL SERVICE
LESS THAN 20 KW
(Continued)

GENERATION AND TRANSMISSION DEMAND

The Generation and Transmission Demand shall be the maximum measured 15-minute integrated demand in kilowatts occurring during the month.

SMALL USAGE DEVICES

Devices for which total connected load does not exceed 2,000 watts per point of connection may be provided unmetered service if, at the sole discretion of the utility, usage is impractical or unsafe to meter. The monthly kilowatt-hour (kWh) billed each month for such small usage devices shall be determined as the total kilowatt (kW) capacity requirement of the Customer's equipment multiplied by 730 hours. The capacity requirement shall be stated on the Customer's application for service. Connection to the utility's system will be made by the utility, subject to Customer's installation meeting all of the utility's design and installation requirements.

The Customer shall not change the capacity requirement or other aspects of their installation without first notifying the utility in writing a minimum of 30 days before changes are made. Customer's changes that render the service ineligible for unmetered service shall result in service being metered. Under such circumstances, utility approved metering point(s) must be installed by Customer within 30 days following notification or service will be disconnected.

The utility shall not be required to adjust billings due to failure of Customer's equipment. The utility shall have the right to test the capacity requirements of small usage devices from time to time. If the utility determines that the capacity was under-reported by the Customer or that the Customer otherwise failed to notify the utility of an increase in capacity, the utility may backbill for the incremental kWh associated with such increased capacity back to the date that service was first furnished.

SPECIAL CONDITIONS

At the utility's option, a demand meter will be installed when the utility estimates that a customer's demand may exceed 20 kw per month.

CONTINUING SERVICE

Except as specifically provided otherwise, the rates of this tariff are based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.

TERM OF CONTRACT

Not less than one year.

RULES AND REGULATIONS

Service under this schedule is subject to the General Rules and Regulations contained in the tariff of which this schedule is a part and to those prescribed by regulatory authorities.
