

Schedule No. DM-9

MULTI-FAMILY RESIDENTIAL SERVICE - MASTER METERED
NO NEW SERVICE

APPLICABILITY

Applicable to single-phase alternating current electric service for residential purposes in multi-family living units which receive electric service through one meter on a single premises, as specified under Special Conditions of this Schedule. The rates specified herein will be designated for each service in accordance with the energy uses qualified and elected by the Customer. The Basic Residential Use baseline allowance will apply unless baseline allowances available for electric space heating are qualified and elected.

TERRITORY

Within the entire territory served in California by the Utility.

MONTHLY BILLING

The Monthly Billing shall be calculated in accordance with the applicable Residential Service Schedule No. D.

Direct Access Customers shall have their Monthly Billing modified in accordance with Schedule EC-1 and Schedule TC-1. All Monthly Billings shall be adjusted in accordance with Schedule ECAC-94 and the applicable adjustment schedules that are a part of this tariff. Applicable adjustment schedules are specified in Schedule X-90.

Note: The Minimum Charge is applied per unit.

MINIMUM CHARGE

The Minimum Charge shall be calculated in accordance with the applicable Residential Service Schedule No. D. A higher minimum may be required under contract to cover special conditions.

SPECIAL CONDITIONS

1. No motor load shall exceed a total of 7 1/2 horsepower connected at one time.
2. All electric space heaters larger than 1,650 watts rated capacity shall be designed and connected for operation at 240 volts, and each space heating unit having a rated capacity of two (2) kilowatts or larger shall be thermostatically controlled by automatic devices of a type which will cause a minimum of radio interference. Space heaters served under this schedule shall be of types and characteristics approved by the Utility. Individual heaters shall not exceed a capacity of five (5) kilowatts.
3. Service under this schedule may be furnished to multiple dwelling units, such as apartment houses, court groups, mobile home parks and related electric facilities through a single meter. Where so supplied, the number of kilowatt-hours in each block of the rate shall be multiplied by the number of single-family dwelling units or apartment served. In determination of the multiplier, it is the responsibility of the Customer to advise the Utility within 15 days following any change in the number of residential dwelling units and mobile homes wired for service.
4. Miscellaneous electrical loads such as general lighting, laundry rooms, general maintenance and other similar usage incidental to the operation of the premises as a multi-family accommodation will be considered as domestic usage.

Schedule No. DM-9

MULTI-FAMILY RESIDENTIAL SERVICE - MASTER METERED
NO NEW SERVICE
 (Continued)

SPECIAL CONDITIONS (Continued)

5. Electric energy for nondomestic enterprises such as rooming houses, boarding houses, dormitories, rest homes, military barracks, stores, restaurants, service stations and similar establishments will be separately metered and billed under the applicable general service schedules.

6. Baseline rates are applicable only to separately metered residential usage. The Utility may require the Customer to complete and file with it an appropriate Declaration of Baseline Eligibility.

7. The following quantities of electricity are to be billed at the rates for baseline usage:

	<u>Daily kWh Allowance</u> <u>Per Meter Per Day</u>	
	<u>Basic Use</u> <u>and Electric</u> <u>Water Heating</u>	<u>Permanently</u> <u>Installed</u> <u>Electric Space</u> <u>Heating</u>
A. Del Norte County:		
October 1 through May 31	17.9	25.7
June 1 through September 30	13.3	14.7
B. All other territory served by the Utility:		
November 1 through April 30	16.7	26.8
May 1 through October 31	12.4	14.4

*Any submetered unit will receive the allowance for individually metered units as shown on Schedule No. DS-8.

Energy used in excess of the baseline allowance will be billed at the nonbaseline rate.

8. Electric water heating is defined as permanently installed and wired electrical devices which provide the principal source of heat for hot water.

9. Permanently installed electric space heating is defined as any of the following: Permanently installed and wired resistive elements which provide the principal source of heat, heat pumps, or any permanently installed water or steam heating using electric heating devices as the principal source of heat.
