Canceling

APPLICABILITY

Applicable to single-phase alternating current electric service for residential purposes in multi-family living units which receive electric service through a master meter on a single premises with all individual family units submetered and billed as specified under Special Conditions of this Schedule. The rates specified herein will be designated for each service in accordance with the energy uses qualified and elected by the Customer. The Basic Residential Use and Electric Water Heating baseline allowance will apply unless baseline allowances available for electric space heating are qualified and elected. In accord with California Assembly Bill 622, chaptered September 12, 1996, this schedule is closed to new mobile home parks or manufactured housing communities built after January 1, 1997.

TERRITORY

Within the entire territory served in California by the Utility.

MONTHLY BILLING

The Monthly Billing shall be calculated in accordance with the applicable Residential Service Schedule No. D and/or Residential Service Schedule No. DL-6 if applicable, less a daily per unit discount. If any submetered individual family unit qualifies for CARE as set forth in Schedule No. DL-6, the baseline allowance and non-baseline usage (if applicable) shall be prorated among applicable Schedule No. DL-6 rates and the standard Tariff Schedule No. D rates according to the proportion of qualifying and nonqualifying units. Note: The Basic Charge is applied per DS-8 Account.

The total daily per unit discount is 0.218 per single-family mobile home accommodation. This is the amount of the submetering discount of 0.246 per day per single-family mobile home accommodation reduced by a diversity factor of 0.027 per day. In no event shall the total daily per unit discount of 0.218per single-family mobile home accommodation exceed the amount of the Distribution portion of the Energy Charge, multiplied by the number of kilowatt hours used.

Direct Access Customers shall have their Monthly Billing modified in accordance with Schedule No. EC-1 and Schedule No. TC-1. All Monthly Billings shall be adjusted in accordance with Schedule ECAC-94 and the applicable adjustment schedules that are a part of this tariff. Applicable adjustment schedules are specified in Schedule X-90.

MINIMUM CHARGE

The Minimum Charge shall be calculated in accordance with the applicable Residential Service Schedule No. D, less the total daily per unit discount and Residential Service Schedule DL-6 if applicable. A higher minimum may be required under contract to cover special conditions.

SPECIAL CONDITIONS

1. No motor load shall exceed a total of 7 1/2 horsepower connected at one time.

2. All electric space heaters larger than 1,650 watts rated capacity shall be designed and connected for operation at 240 volts, and each space heating unit having a rated capacity of two (2) kilowatts or larger shall be thermostatically controlled by automatic devices of a type which will cause a minimum of radio interference. Space heaters served under this schedule shall be of types and characteristics approved by the Utility. Individual heaters shall not exceed a capacity of five (5) kilowatts.

SPECIAL CONDITIONS (Continued)

Service under this schedule may be furnished to multiple dwelling 3. units such as apartment houses, court groups, mobile home parks and related electric facilities which receive service through a master meter on a single premises with individual family units submetered. When so supplied, the number of kilowatt-hours in each block of the rate shall be multiplied by the number of submetered single-family dwelling units or apartments served. In determination of the multiplier, it is the responsibility of the Customer to advise the Utility within 15 days following any change in the number of residential dwelling units and mobile homes wired for service.

Submetered dwelling units receiving service from accounts master 4. metered and billed hereunder shall in turn be billed at the rates of Schedule No. D of this tariff.

5. Miscellaneous electrical loads such as general lighting, laundry rooms, general maintenance and other similar usage incidental to the operation of the premises as a multi-family accommodation will be considered as domestic usage.

Electric energy for nondomestic enterprises such as rooming houses, б. boarding houses, dormitories, rest homes, military barracks, stores, restaurants, service stations and similar establishments will be separately metered and billed under the applicable general service schedules.

Baseline rates are applicable only to separately metered residential 7. usage. The Utility may require the Customer to complete and file with it an appropriate Declaration of Baseline Eligibility.

The following quantities of electricity are to be billed at the 8. rates for baseline usage:

		Daily kWh Allowance Per Meter Per Day	
		Basic Use and Electric Water Heating	Permanently Installed Electric Space Heating
Α.	Del Norte County: October 1 through May 31 June 1 through September 30	23.9 17.2	32.5 17.7
В.	All other territory served by the Utility:		
	November 1 through April 30 May 1 though October 31	22.6 16.1	34.4 17.4

Energy used in excess of the baseline allowance will be billed at the nonbaseline rate.

<u>MULTI-FAMILY RESIDENTIAL SERVICE</u> - <u>SUBMETERED</u> (Continued)

SPECIAL CONDITIONS (Continued)

9. Electric water heating is defined as permanently installed and wired electrical devices which provide the principal source of heat for hot water.

10. Permanently installed electric space heating is defined as any of the following: Permanently installed and wired resistive elements which provide the principal source of heat, heat pumps, or any permanently installed water or steam heating using electric heating devices as the principal source of heat.

11. The baseline allowance for each billing period is calculated by multiplying the number of days in the billing period by the appropriate daily baseline allowance. When a billing period falls between the winter and summer seasons the total number of days falling in each season is multiplied by the appropriate daily baseline allowance for the season and totaled to arrive at the baseline allowance for the billing period.

12. Three phase load will be supplied service under this schedule for multi-family residential customers who were supplied three phase service on a general service schedule on January 1, 1977.

13. STANDARD MEDICAL QUANTITIES FOR RESIDENTIAL CUSTOMERS: A residential customer who certifies in writing that regular use of a medical life-support device, as defined below is essential to maintain the life of a full-time resident of the household, that a full-time resident of the household is a paraplegic, hemiplegic, or quadriplegic person, and/or that a full-time resident of the household is a multiple sclerosis/scleroderma patient, is eligible for a standard daily medical quantity in addition to the standard daily non-medical baseline quantity. The amount of the additional quantity shall be 16.4 kWh per day.

If the customer believes the life-support device upon which a fulltime resident of the customer's household depends to sustain life requires more than 16.4 kWh per day to operate, the customer may apply for a higher quantity than that provided in this Rule. Upon receipt of the application, the utility shall make a determination based on the device's nameplate ratings and operating hours, of what additional number of kWh per day are required to operate the device. The additional quantity provided for in this special condition shall be increased by that number of kWh per day.

The utility may require certification by a doctor of medicine or osteopathy licensed to practice medicine in the State of California that a medical need exists and that a particular device is necessary to sustain the resident's life.

14. LIFE SUPPORT DEVICE: For the purpose of determining baseline quantities under the provisions of a rate schedule applicable to residential uses, a life-support device is any medical device requiring utility-supplied energy for its operation that is regularly required to maintain the life of a person residing in a residential unit. The term includes respirators, iron lungs, hemodialysis machines, suction machines, electric nerve stimulators, pressure pads and pumps, aerosol tents, electrostatic and ultrasonic nebulizers, compressors, IPPB machines and motorized wheelchairs. It also includes additional space heat for paraplegic, hemiplegic and quadriplegic persons and additional space heat and air conditioning for multiple sclerosis/scleroderma patients.

CONTINUING SERVICE

Except as specifically provided otherwise, the rates of this tariff are based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from minimum monthly charges.
