

RULE NO. 1

DEFINITIONS

For the purpose of these tariff schedules the terms and expressions listed below will have the meanings stated.

ANNUAL OR SEASONAL MINIMUM CHARGE:

The minimum charge for one billing period multiplied by the number of billing periods in a year or season.

APPLICANT:

A person or agency who (1) applies for electric service or (2) reapplies for electric service at a new or existing location after service has been discontinued. An Applicant may also be an applicant for a line extension or other services under Rule 15.

BASIC CHARGE

A monthly amount, specified in certain rate schedules, which is charged regardless of the amount of Energy consumed. The charge represents a part of the Company's fixed costs of making service available including, but not limited to, meter reading and billing costs.

APPLICATION:

A request to the utility for electric service as distinguished from an inquiry as to the availability or charges for such service.

BILLING PERIOD:

The time interval between two consecutive meter readings that are taken for billing purposes.

COMPANY:

PacifiCorp dba Pacific Power & Light Company.

COMPANY'S OPERATING CONVENIENCE:

The term refers to the utilization, under certain circumstances, of facilities or practices not ordinarily employed which contribute to the over-all efficiency of the utility's operations; it does not refer to Customer convenience nor to the use of facilities or adoption of practices required to comply with applicable laws, ordinances, rules or regulations, or similar requirements of public authorities.

CONNECTED LOAD:

The sum of the rated capacities of all the Customer's equipment that can be connected to the utility's lines at any one time.

CUSTOMER:

Any individual, partnership, corporation, firm, other organization or government agency who has applied for, been accepted and is currently receiving service from the utility at one location and one point of delivery unless otherwise expressly provided in these rules, or in a rate schedule or contract.

DATE OF PRESENTATION:

The date upon which a bill is mailed, transmitted or delivered by the utility to the Customer.

RULE NO. 1 (Continued)
DEFINITIONS

DEMAND:

That portion of the service which is determined by the maximum measured 15-minute integrated demand in kilowatts occurring during the month according to the applicable rate schedule.

DIRECT ACCESS:

Described in Rule 21.

DISTRIBUTION LINES:

Overhead pole lines and/or underground facilities consisting of conduit and cable which are operated at nominal distribution voltages.

ELECTRIC SERVICE:

The availability of electric power and energy at the point of delivery for use by Customer irrespective of whether electric energy is actually utilized.

EMERGENCY CUSTOMER PROTECTION PLAN:

Pursuant to CPUC directives and advice letters listed below, residential and small business customers in areas where a state of emergency proclamation is issued by the Governor of California due to a disaster that affects utility services are eligible for measures under PacifiCorp's Emergency Customer Protection Plan. Customers eligible for the emergency customer protections described in D.18-08-004 are those directly impacted by the disaster and identified as such by PacifiCorp or who have self-reported as being impacted. Directly impacted customers would include those without electric service or those needing to re-locate (either temporarily or permanently) due to damage from the disaster. Due to limited information on the impact to PacifiCorp customers, PacifiCorp will extend the protections only to directly impacted customers. These protections include (see D.18-08-004 for a complete list):

- Suspension of disconnections for non-payment at the new address of customers whose home or business were destroyed.
- Waiving of account re-establishment deposits for customers whose home or business were destroyed.
- Working with customers to provide flexible, reasonable payment arrangements as needed.
- Freezing all CARE eligibility standard and high-usage Post Enrollment Verification (PEV) requests for customers in the impacted counties for up to one year.

State of emergency proclamation issued by the Governor of California

Pursuant to Decision 18-08-004, PacifiCorp's Emergency Customer Protection Plan is available to residential and small business customers in areas where a state of emergency proclamation is issued by the Governor of California where the disaster has either resulted in the loss or disruption of the delivery or receipt of utility service, and/or resulted in the degradation of the quality of utility service. PacifiCorp's Emergency Customer Protection Plan is extended to eligible customers, as defined above, in the affected disaster area within the counties listed below for a period of one year commencing from the date the state of emergency proclamation was issued, or until PacifiCorp service is restored.

<u>Date of Proclamation</u>	<u>Disaster Name</u>	<u>Affected County</u>

DEFINITIONS

ENERGY:

Electric energy, measured in kilowatt-hours.

ENERGY CHARGE:

That portion of the charge for service which is determined by the quantity of energy consumed in accordance with the applicable rate schedule.

EXTENSION:

A branch from, or a continuation of, an existing Company-owned transmission or distribution line, where a line has not been removed, at Customer request, within the last five years. An extension may be either single-phase or three-phase or may consist of conversion of single-phase line to three-phase line or the provision of additional capacity in existing lines or facilities.

FACILITIES CHARGE:

Monthly charges made by the Company as reimbursement for ownership, operation and maintenance costs applicable to facilities installed to furnish service under rules of this tariff. Facilities Charge percentage values are listed in Schedule 300 for Rule 15.

FEDERAL ENERGY REGULATORY COMMISSION (FERC):

Federal agency with jurisdictional responsibilities over electric transmission service and electric sales for resale.

INTERMITTENT SERVICE:

Continuously available service which the Customer uses intermittently and in such duration that minimal amounts of electric power or energy are registered by Company meters for such uses.

KILOVAR (kvar):

A unit of reactive power equal to 1,000 reactive volt-amperes.

KILOVAR-HOUR (kvarh):

The amount of reactive flow in one hour, at a constant rate of one kilovar.

KILOWATT (kW):

A unit of power equal to 1,000 watts.

KILOWATT HOUR (kWh):

The amount of energy delivered in one hour, at a constant rate of one kilowatt.

METER:

The apparatus used for measuring the amount of energy, or energy and demand, delivered to the Customer, including all necessary instrument transformers and testing facilities, but excluding instrument boards and enclosures.

MINIMUM CHARGE:

The least amount for which service will be rendered for a particular billing period, season, or other time interval, under a given rate schedule.

RULE NO. 1 (Continued)
DEFINITIONS

MULTIPLE DWELLING UNITS:

An apartment building, duplex, court group or any other combination of two or more residential units located upon a single premises, providing the residential units therein meet the requirements for a single family dwelling. (Hotels, dude ranches, tourist camps, motels, auto courts, trailer courts and the like will not be classed as multiple dwelling units.)

NONRESIDENTIAL CUSTOMER:

A retail Customer that is not a Residential Customer.

PARALLELING:

Connection to the Company electric system, directly or indirectly, of any source of electric power is prohibited without an express written operation agreement with the Company concerning such connection.

POINT OF DELIVERY:

The point where wires of the utility are connected to the wires of the Customer, regardless of the location of the utility's meters or transformers. Utility wires may be owned, leased or under license by the utility and the Customer's wires may be owned, leased or under license by the Customer.

POWER FACTOR:

The Company may require the Customer to provide, at their own expense, equipment to increase the operating power factor of any equipment (exclusive of electric welders), including each complete unit of neon, fluorescent, or other gaseous tube lighting equipment, to not less than 85%, lagging or leading. The Company may require that the wave form of current drawn by each complete unit of equipment of any kind be in conformity with good engineering practice.

PREMISES:

All of the real property and apparatus employed in a single enterprise on an integral parcel of land undivided, excepting in the case of industrial, agricultural, oil field, resort enterprises and public or quasi-public institutions, by a dedicated street, highway or other public thoroughfare, or a railway. Automobile parking lots constituting a part of and adjacent to a single enterprise may be separated by an alley from the remainder of the premises served.

PUBLIC PURPOSE PROGRAM CHARGES:

A non-bypassable surcharge imposed on all retail sales of electricity and electrical services to fund public goods research, development and demonstration, energy efficiency activities, and low income assistance programs.

PUBLIC UTILITIES COMMISSION:

The Public Utilities Commission of the State of California.

QUALIFIED CONTRACTOR/SUBCONTRACTOR (QC/S):

An applicant's contractor or subcontractor who:

1. Is licensed in California for the appropriate type of work such as, but not limited to, electrical and general; and
2. Employs electric workers properly qualified (Qualified Electrical Worker, Qualified Person, etc.) as defined in State of California High Voltage Safety Orders (Title 8, Subchapter 5, Group 2); and
3. Complies with applicable laws such as, but not limited to, Equal Opportunity Regulations, OSHA and EPA.

RULE NO. 1 (Continued)
DEFINITIONS

RATE SCHEDULE:

One or more tariff sheet(s) setting forth the charges and conditions for a particular class or type of service in a given area or location. A rate schedule, as referred to herein, shall include all the wording on the applicable tariff sheet(s) such as, but not limited to the following: Schedule Number, Class of Service, Title, Applicability, Territory, Rates, Special Conditions and references to Rules.

RECREATIONAL VEHICLE:

As defined in the California Health and Safety Code, a motor home, slide-in camper, trailer or camping trailer, with or without motive power, designed for human habitation for recreational or emergency occupancy.

RECREATIONAL VEHICLE (RV) PARK:

An area or tract of land or a separate section within a mobile home park where one or more lots are occupied by owners or users of recreational vehicles.

REGULATED CHARGES:

Charges for services subject to the jurisdiction of the Public Utilities Commission.

REMOTE SERVICES:

Service to distant or isolated locations which, in the Company's opinion, will not have sufficient annual Schedule Billings to cover the Company's annual incurred costs. A distant or isolated location is any location or group of locations more than one-half mile from the Company's distribution facilities and where additional development is unlikely due to geographical constraints.

RESIDENTIAL CUSTOMER:

A Customer receiving Residential Service as described in Rule No. 2.

RULES:

Tariff sheets, which set forth the application of all rates, charges and service when such applicability is not set forth in and as a part of the rate schedules.

SCHEDULE BILLING:

The total of all charges for service, computed from the Company's applicable rate schedules.

SEASONAL SERVICE:

Service for annually recurring periods of use where service is discontinued or curtailed during part of the year.

SMALL BUSINESS CUSTOMER:

A Nonresidential Customer who uses less than 40,000 kilowatt hours annually, 20 kilowatts or less monthly or meets the requirements and self certifies as a micro-business, as defined in Government Code Section 14837. This definition does not include fixed usage or unmetered rate schedule Customers.

STAND-BY SERVICE:

Service in supply to, or made available to, load which is served part or all of the time by another power source for reasons of increased reliability of supply through duplication of source.

Title

Rule No. 1 (Continued)

DEFINITIONS

SUPPLEMENTARY SERVICE:

Service in supply to, or made available to, load which receives some degree of simultaneous supply from another power source for additional supply or greater economy of supply at peak or light load conditions.

TARIFF SCHEDULES:

The entire body of effective rates, rentals, charges and rules collectively of the utility, as set forth herein, and including title page, preliminary statement, rate schedules, rules, and sample forms.

TARIFF SHEET:

An individual sheet of the tariff schedules.

TEMPORARY SERVICE:

Service for enterprises or activities which are temporary in character or where it is known in advance that the service will be of limited duration. Service which, in the opinion of the utility, is for operations of a speculative character or the permanency of which has not been established is also considered temporary service.

TIME-OF-USE (TOU):

Rate schedule that prices electricity according to the season and/or time of day that it is used.

TRACT OR SUBDIVISION:

An area for family dwellings which may be identified by filed subdivision plans or as an area in which a group of dwellings may be constructed about the same time, either by one builder or by several builders working on a coordinated basis.
