

REDACTED

Docket No. UE 433

Exhibit PAC/700

Witness: Mariya V. Coleman

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

PACIFICORP

REDACTED

Direct Testimony of Mariya V. Coleman

February 2024

TABLE OF CONTENTS

I. INTRODUCTION AND WITNESS QUALIFICATIONS 1
II. PURPOSE AND SUMMARY OF TESTIMONY 2
III. OVERVIEW OF INSURANCE PROGRAMS 2
IV. EXCESS LIABILITY INSURANCE PREMIUMS 5
V. RECOVERY OF INSURANCE DEFERRAL 9

1 **I. INTRODUCTION AND WITNESS QUALIFICATIONS**

2 **Q. Please state your name, business address, and present position with PacifiCorp**
3 **d/b/a Pacific Power (PacifiCorp or the Company).**

4 A. My name is Mariya V. Coleman. My business address is 2755 E Cottonwood
5 Parkway, Salt Lake City, Utah 84121. I am currently the Vice President of Corporate
6 Insurance and Claims for Berkshire Hathaway Energy Company (BHE), PacifiCorp's
7 parent company.

8 **Q. Please describe your education and professional experience.**

9 A. I joined NV Energy as a Risk Analyst in 2010 and worked in roles of increasing
10 responsibility in corporate insurance through 2017. Since 2015, I have managed
11 PacifiCorp's insurance costs and insurance personnel. In 2017, I was named the
12 Director of Corporate Insurance for BHE and its subsidiaries including PacifiCorp.
13 I assumed my current role as Vice President of Corporate Insurance and Claims in
14 May 2023. I have a Bachelor of Science in Finance from University of Nevada, Las
15 Vegas and a Master of Business Administration from the University of Nevada, Las
16 Vegas.

17 **Q. What are your primary responsibilities as Vice President of Corporate**
18 **Insurance and Claims for the Company?**

19 A. As Vice President of Corporate Insurance and Claims, I am responsible for the
20 corporate insurance function for BHE and the Company, including the acquisition and
21 management of all corporate insurance programs covering \$132 billion in assets.

22 **Q. Have you testified in previous regulatory proceedings?**

23 A. Yes. I have testified in regulatory proceedings in Nevada, Utah and Wyoming.

1 **II. PURPOSE AND SUMMARY OF TESTIMONY**

2 **Q. What is the purpose of your direct testimony in this case?**

3 A. The purpose of my direct testimony is to provide support for the Company's
4 estimated insurance premiums to be collected through the proposed surcharge as
5 detailed in the testimony of Company witness Joelle R. Steward, with the Company
6 seeking an effective date of January 1, 2025, for the proposed rate adjustment.¹ My
7 testimony further supports the recovery of the total deferred liability insurance
8 premiums recorded under docket UM 2301, as detailed in the testimony of Company
9 witness Sherona L. Cheung.²

10 **Q. Please summarize your testimony.**

11 A. My testimony provides an overview of excess liability insurance and how wildfire
12 liability risk has impacted the commercial insurance markets causing a recent
13 increase in the premiums for available excess liability insurance coverage. My
14 testimony further addresses the critical need for obtaining excess liability insurance to
15 cover third-party claims and the factors contributing to the recent surge in commercial
16 premiums for such insurance within the commercial markets.

17 **III. OVERVIEW OF INSURANCE PROGRAMS**

18 **Q. What types of commercial insurance does PacifiCorp maintain?**

19 A. PacifiCorp maintains a number of types of insurances, including, but not limited to
20 the following categories:

21 Excess Liability

22 A claims-made policy form that provides coverage for legal liability to third parties
23 arising out of bodily injury and property damage losses suffered by those third
24 parties.

¹ Exhibit PAC/600, Steward/4; *see also* Exhibit PAC/1700, Cheung/42-43.

² Exhibit PAC/1700, Cheung/42-43.

1 Punitive Damages

2 Provides indemnity-only excess liability coverage for punitive damages imposed or
3 awarded against the insured under certain circumstances specified in the policy.

4 Onshore Property

5 Covers all risks of physical loss or damage to operating locations (i.e., fire,
6 earthquake, flood, theft, boiler and machinery breakdown, turbine generator
7 breakdown). This coverage includes peripheral coverages such as business
8 interruption at select BHE Renewables sites, increased cost of construction,
9 incidental transit, service interruption, debris removal, accounts receivable, and
10 firefighting equipment.

11 Terrorism

12 Provides sabotage and terrorism coverage with respect to property insured
13 under BHE's onshore property program. Terrorism coverage applies to
14 certified and non-certified acts.

15 Inland Transit and Storage

16 Coverage is included for BHE transits of turbine rotors, generators, combustion
17 components, exciters, and similar machinery and equipment. Allocation is based on
18 the values of the property shipped.

19 Wind and Solar Equipment Storage

20 Provides property coverage for wind and solar equipment in storage for
21 MidAmerican Energy, BHE Renewables, and PacifiCorp projects. Allocation is
22 based on the values of the property in storage.

23 Large-Deductible Worker's Compensation

24 Provides statutory coverage once the deductible is met for employees injured
25 directly as a result of their employment with the company.

26 Excess Workers Compensation

27 Provides statutory coverage in excess of self-insured retention for employees injured
28 directly as a result of their employment with the company.

29 Automobile Liability

30 Coverage for third-party bodily injury and property damage liability arising out of
31 automobile accidents that are BHE's fault. This covers liability arising out of the
32 use of owned, non-owned, and hired automobiles. Coverage does not include
33 physical damage.

34 Aviation and Unmanned Aircraft Systems

35 Provides liability for bodily injury and property damage to third parties arising out
36 of the use of owned and non-owned aircraft. The policy also includes physical
37 damage loss to aircraft as well as war and terrorism and sabotage buyback.

1 purchases for both liability and physical damage. Each aircraft is individually
2 rated, and charges are sent to the business which owns the aircraft.

3 Occurrence Liability Fronting Policy

4 Allows BHE to have insurance certificates issued for contracts that require an
5 occurrence-based commercial general liability policy form.

6 Surety Bonds

7 Used for contractual obligations of BHE businesses where that business is required to
8 have a surety company financially guarantee to an obligee that the BHE business will
9 act in accordance with the terms established in the bond. All businesses pay their own
10 individual bond premium.

11 **Q. Please explain how PacifiCorp's liability insurance is structured in current rates.**

12 A. The Company has included insurance premium cost in prior Oregon general rate
13 cases. In particular, PacifiCorp's current approved rates incorporate premiums for
14 commercial insurance that provide third-party liability coverage for claims exceeding
15 \$10 million, while the Company self-insures for lesser claims up to \$10 million.

16 **Q. Please describe how PacifiCorp procures commercial excess liability insurance.**

17 A. PacifiCorp's excess liability insurance is purchased as part of BHE's aggregated
18 insurance purchase, which allows PacifiCorp to leverage BHE's size and expertise.
19 Excess liability insurance includes the following major areas of coverage: general
20 liability, wildfire liability, auto liability and employer's liability. Claims for damages
21 to third-parties are included within excess liability coverage.

22 **Q. How are the excess liability premiums allocated to PacifiCorp?**

23 A. PacifiCorp's excess liability premiums are allocated through BHE's corporate
24 allocation. BHE's corporate allocation calculates an average percentage of property,
25 plant and equipment; employee count; loss history; overhead electric transmission
26 and distribution lines; and transmission and distribution pipeline miles.

1 **Q. What are the cost associated with excess liability insurance included in this case?**

2 A. As explained in the testimony of Company witness Cheung, the Company proposes
3 an excess liability insurance premium amount of \$50.4 million (Oregon-allocated) to
4 be recovered through a separate surcharge effective January 1, 2025.³ This amount
5 reflects the Company's estimate of excess liability premiums for the test period.

6 **Q. Is the estimate of excess liability insurance premium costs based on the most**
7 **recent premiums issued to the Company?**

8 A. Yes. The premiums for excess liability presented in this proceeding are derived from
9 the most recent renewal of its commercial insurance policies in August 2023, with a
10 projected 50 percent increase applied for the 2025 test period. My testimony will
11 provide a rationale why the Company's estimate of excess liability premiums for the
12 test period is appropriate.

13 **IV. EXCESS LIABILITY INSURANCE PREMIUMS**

14 **Q. Why is it necessary for PacifiCorp to have sufficient excess liability coverage to**
15 **continue providing low-cost electric service in Oregon?**

16 A. Maintaining insurance is a necessary part of operating a utility and managing the risks
17 associated with that business. Excess liability insurance protects the Company and
18 customers against financial losses from third-party claims in Oregon and other states
19 in which the Company provides utility service. However, wildfire risk for utilities in
20 the western United States (U.S.) has radically changed in the past few years, and the
21 premiums for available commercial excess liability insurance have significantly
22 increased.

³ Exhibit PAC/1700, Cheung/42-43.

1 **Q. What has caused the excess liability premium increase?**

2 A. Wildfires across the western U.S. have resulted in significantly increasing wildfire
3 costs and an inability to acquire insurance at rates and coverage levels that have been
4 consistent with past premiums. Insurers have increased the price at which they will
5 consider selling insurance covering claims from wildfire liability. Additionally,
6 insurers who historically would consider selling wildfire liability will no longer do so.
7 Excess liability insurance premium costs in 2023 are 3.7 times the Company's 2022
8 insurance premiums. 2023 premiums are 18 times higher than 2019 premiums for
9 comparable insurance coverage. Excess liability insurance, including wildfire liability
10 insurance, is a prudent business expense that protects the Company and customers
11 against financial losses from third-party claims.

12 **Q. What are the impacts to the excess liability premiums?**

13 A. As just previously explained, because the wildfire risk for utilities in the Western U.S.
14 has radically changed in the past few years, the premiums for available commercial
15 liability insurance have significantly increased.

16 **Q. Do you believe that commercial premiums for excess liability will continue to
17 increase?**

18 A. Yes. The Company views the premium increases encountered since 2019 as a sign of
19 the continued elevated expenses it anticipates for future excess liability coverage.
20 This expectation is due to the ongoing challenges related to wildfire insurance.

21 **Q. Can you further explain the timing for the increase in premiums?**

22 A. Typically, the Company executes renewals of insurance policies in August of each
23 year. All costs are related to excess liability insurance premiums related to coverage

1 for third-party claims brought against PacifiCorp resulting from providing service to
2 its customers.

3 **Q. What is the Company’s estimate of excess liability premiums for the test period?**

4 A. Based on recent trends, a compounded annual program-wide increase of at least
5 25 percent in 2024 and 2025, informs a 50 percent increase over current costs.
6 Accordingly, the excess liability premiums are estimated to be approximately \$183.9
7 million, which on an Oregon-allocated basis, translates to \$50.4 million.⁴

8 [REDACTED]
9 [REDACTED]
10 [REDACTED]
11 [REDACTED]
12 [REDACTED]
13 [REDACTED]

14 [REDACTED] However, excess liability premiums for the test period are currently the
15 Company’s best estimates based on currently available information. As better
16 information becomes available throughout the proceeding, the Company will provide
17 further updates to the estimates amounts as necessary.⁵

18 **Q. How are liabilities associated with wildfires covered under the prior and current
19 commercial insurance policies?**

20 A. The total amount of insurance per occurrence is \$458.25 million with varying
21 sub-limits for occurrences between states. Claims in any state use up the total amount
22 of the limit available for all states. This means that if there is a claim in one state, then

⁴ Exhibit PAC/1700, Cheung/42-43.
⁵ Exhibit PAC/1700, Cheung/43.

1 there is less insurance available for the next claim in any other state. Liabilities prior
 2 to this renewal were covered similarly to how they are after the August 15, 2023,
 3 renewal with an increase in the amount of cumulative, shared insurance limit as
 4 reflected below:

August 15, 2022 – August 14, 2023		August 15, 2023 – August 14, 2024	
State	Shared Total Limit	State	Shared Total Limit
CA	\$110m	CA	\$344.75m
ID, UT, WY	\$232.5m	ID, UT, WY	\$458.25m
OR, WA	\$188m	WA	\$363.25m
		OR	\$348.25m

5 Most policies are issued with a single cost for all states, with just a few outliers
 6 insuring just California or Oregon, separately. Without purchasing additional
 7 insurance products for each individual state, at an incremental cost, insurers will not
 8 differentiate how much risk is allocated by state any further than reflected in the
 9 statement above.

10 **Q. How do insurers handle coverage for PacifiCorp’s multiple states?**

11 A. Insurers impose sub-limits within a policy to differentiate risks between various
 12 states. These sub-limits allow PacifiCorp to insure the entire system at lower cost for
 13 our customers.

14 **Q. How did the Company determine the level of reasonable liability insurance
 15 coverage?**

16 A. The Company evaluated wildfire claims results from the Western U.S. and purchased
 17 available insurance limits that were offered by the market. Liabilities can exceed the
 18 current insurance coverage limits that were purchased in the event of a catastrophic
 19 wildfire.

1 **Q. Why is it reasonable and prudent for these insurance premium costs to be**
2 **included in Oregon rates?**

3 A. Maintaining insurance is a necessary part of operating a utility and the risks
4 associated with that business. Utilities maintain insurance at different levels when
5 compared to other industries in order to avoid the volatility of claims on customer
6 rates, especially in an environment when the utility does not directly control the
7 pricing of the service it provides.

8 Oregon customers have benefitted materially from excess liability insurance
9 coverage including recovery of over \$450 million system-wide since 2010, which
10 offsets claims paid by PacifiCorp. These insurance recoveries directly reduce the cost
11 of claims paid, providing financial stability for both the Company and its customers.

12 **V. RECOVERY OF INSURANCE DEFERRAL**

13 **Q. Is the Company requesting the recovery of total deferred liability insurance**
14 **premium?**

15 A. Yes. As explained in the testimony of Company witness Cheung:

16 [T]he Company anticipates that the total deferred liability insurance
17 premiums to be recorded under docket UM 2301 will be
18 approximately \$41.3 million, before accrual of interest, on an
19 Oregon-allocated basis. The Company is proposing to amortize the
20 total Oregon-allocated deferred amounts, plus interest accrual, over
21 a three-year amortization period. Accordingly, annual amortization
22 amount is estimated to be approximately \$15.6 million.⁶

⁶ Exhibit PAC/1700, Cheung/42.

1 **Q. Were these deferred amounts prudently incurred and should they be recovered**
2 **in rates?**

3 A. Yes. Excess liability insurance constitutes a prudent business expenditure that
4 safeguards both the Company and its customers from financial setbacks arising from
5 third-party claims. In fact, PacifiCorp's currently approved rates include expenses
6 related to excess liability insurance premiums. Although the premiums for
7 commercial insurance have escalated for electric utilities since the Company's
8 previous general rate case, these costs remain a prudent expense and ought to be
9 included in rates.

10 **Q. Does this conclude your direct testimony?**

11 A. Yes.
