Single Site Exemption

Consumer must declare to Company that it meets the \$500 per month single site exemption in SB 1149 as specified in this tariff. Consumer claiming the \$500 per month single site exemption must provide certification to the Company.

For the purpose of the Low Income Bill Payment Assistance Charge, the Consumer may take one of two approaches to be certified as a Site.

1. The Company will accept any Consumer that has completed an Oregon Department of Energy (ODOE) Site Eligibility Application and has been certified as a Site by the ODOE under its Large Electricity Consumer Self-Directed Public Purposes Program.
2. If a Consumer has not been certified by ODOE for self-direction of public purpose charges, the Company will certify the Consumer as a Site for the low-income charge cap. The Consumer will be required to demonstrate it meets the criteria, by providing a map of the proposed facilities and surveyors' affidavit demonstrating it meets the criteria.

Once the Company has received this information and has certified the Consumer as meeting the OPUC Site definition above, the affected locations will be specified as a Site effective with service on and after the date of Company acceptance of certification.

Any adjustments relating to this exemption shall be paid from the low-income bill payment assistance fund collections.

Special Conditions

On a monthly basis, on or before the last day of the month, the Company will forward an amount to the Oregon Housing and Community Services Department based on billings to Consumers for the previous month less a reserve for uncollectable amounts.
