Connecting Portfolio Manager to Resource Advisor

The following describes the process for connecting a Rocky Mountain Power customer with an existing ENERGY STAR® Portfolio Manager® account to Resource Advisor, using ENERGY STAR link functionality. Please note, this connection process will work best when you use the most current version of your preferred Internet Browser (Microsoft Internet Explorer, Google Chrome, Mozilla Firefox, etc.)

Rocky Mountain Power partners with Schneider Electric to provide electrical usage data to Portfolio Manager via Resource Advisor. If you need assistance with this process, please reach out for support to PortfolioManagerSupport@se.com.

PORTFOLIO MANAGER AND RESOURCE ADVISOR – EXCHANGING DATA

It will be necessary to establish a connection in your existing ENERGY STAR Portfolio Manager (PM) account to Schneider Electric's Web Services account. This process establishes the "electronic handshake" between the two platforms and creates a connection between your PM account and Schneider Electric's Resource Advisor platform.

In the steps below, portions of the process will take place in Portfolio Manager and, others in Resource Advisor.

STEP 1

Start Connection Setup In Resource Advisor

1. Login to Resource Advisor and navigate to the Sustainability Tab. Click ENERGY STAR under Configuration.

DASHBOA	RDS SUSTAINABILITY				
Com	pliance Reporting ROYSTAR Site Overview ROYSTAR Property Report			Configuration ENERGY STAR8	Recent Activity ()

2. You'll want to name your connection with a name you will recognize. It can be the same as your Portfolio Manager login, or something that makes sense to your organization – for example a building name or some other identifier.

STEP 2

Add Schneider Electric as a Contact to your Portfolio Manager Account

1. Log in to your Portfolio Manager account.

- a. Note: If you do not have an existing PM account please follow the sign-up instructions outlined at EnergyStar.gov/PortfolioManager.
- 2. Within your PM page select the **Contacts** link.

	RGY STAR® Dittolio	Manag	Jer ®		Welcome SchneiderElectric_Test: <u>Account Settings Contacts</u> <u>Help</u> Sign Out
MyPortfolio	Sharing	Planning	Reporting	Recognition	

3. Next, select Add Contact.

4. Search for username **SchneiderSPP** within the **Username** box.

Find Contact in Portfolio Manager Search using any of the criteria below.					
Name:]			
Username:	SchneiderSPP				
Email:					
		Search <u>Cancel</u>			

5. Once PM locates the SchneiderSPP account, select the one that references ENERGY STAR and click **Connect**.

STEP 4

Sharing Properties in Portfolio Manager

Once the link between your Portfolio Manager account and your data in Resource Advisor has been made, it is then necessary to begin sharing properties within Portfolio Manager to the Resource Advisor Data Exchange connection.

- 1. In Portfolio Manager, share properties with Schneider Electric
 - a. Login to your PM account.
 - b. Go to the **Sharing** tab.
 - c. Click Share a Property.

- d. Select your **Property(ies) to share from the dropdown menu**.
- e. Select to share with Schneider Electric Web Services.

r Edit Access to) Properties
really important to be able to share your property with someone else. Maybe they need to help atically) or process applications for recognition. If this sounds like what you need, start out by ike to share with them. If you have already shared properties, you can also use this form to eq

STEP 5

Confirming Property Share in Resource Advisor

1. Returning to Resource Advisor, click Confirm Property Share.

- 2. A green check mark will appear to confirm the properties are being shared and you will be asked to **click ok** to confirm.
 - a. Note: It will take a few minutes to accept the property shares from Portfolio Manager.

STEP 6

Program Setup in Resource Advisor

Once you've completed the previous steps, you now need to return to Resource Advisor and finish the setup process.

- 1. Navigate to **Sustainability > Configuration > ENERGY STAR**.
- 2. Click on the **Program Setup** tab.

3. Filter to the connection you would like to set up. Type in the name of the connection and the filter will bring up all options with those words in the name. All connections must be set up individually.

Connection Manager	Program Setup
Program Setup	
Connection:	
Test_Account_Schnei	derElectric_Test Go
Which data sources do	you want to track in Portfolio Manager? ()

4. On the **Program Setup** screen, you will select the applicable data sources to track in Portfolio Manager (choose **Electric** for this program).

]

5. Map Portfolio Manager Data Sources to Resource Advisor services by selecting which service corresponds to which Data Source from the dropdown.

Please designate how you want Resource Advisor sources to map to each Portfolio Manager service: 🕧									
Mapped Services									
Portfolio Manager Data Sources	Resource Advisor Services	UOM	Send Data						
Electric	Electric Power 💌	kWh	▼						
Natural Gas		Select UOM	▼						
🔘 site Level Data 🛛 🔿 Account Level Data									
Send Cost data									

- 6. Once a service is selected, you will be able to select the appropriate unit of measure (**kWh**) for this program.
- 7. To the right, check **Send Data** for sources you would like to transfer.
- 8. At the bottom please select the **Site Level Data** button.
 - a. Note: Rocky Mountain Power provided data will be at the site/building level (aggregated for all meters, etc.) monthly.

- 9. Next, select the Program Setup Date after which data will be tracked and synced from Portfolio Manager to Resource Advisor.
 - a. Note: The Setup Date for this program will be 9/1/2014. If you have data in Portfolio Manager that you do not want overridden by historical data provided by Rocky Mountain Power, please choose today's date.

Keep Portfolio Manager up to date with data belonging to service months beginning:	0
September, 2014	

- 10. Currently Rocky Mountain Power is providing data to Resource Advisor on a monthly basis. However, please select **Daily** data exchange.
 - a. Note: Scores and other attributes are brought back into RA on the same frequency, so if monthly is selected, PM metrics will not be seen in RA until the 1st of the following month. It is recommended to initially select daily, and then later switch to monthly or weekly once all portfolio details have synced.

Send data to Portfolio Manager:	D
Daily 👻	
Daily	1
Weekly	
Monthly	I

- 11. The last step is to **select your site(s)** from the Resource Advisor site list that you would like to map to Portfolio Manager properties.
- 12. Then click Save.
 - a. This process will take up to one hour. You can close your browser during this time.

Note: There is a note at the bottom of the page that helps troubleshoot potential problems. Properties will turn red if appropriate access levels are not granted. If you run into issues, please contact PortfolioManagerSupport@se.com.

* Properties in red designate that Resource Advisor does not have sufficient permission to update this property or one of its meters in Portfolio Manager.

Summary

Congratulations! You've successfully setup your Resource Advisor and Portfolio Manager connection and initiated the process of sharing data between the two platforms.

Sharing data is an overnight process. When you login to Resource Advisor tomorrow you should be able to view your current Portfolio Manager Score/EUI and other shared information. Details on how to quickly view that information can be found in the "Resource Advisor Overview" document provided by Rocky Mountain Power.

If you encounter any issues with either the program setup or navigating Resource Advisor, please contact Portfolio Manager Support by email at PortfolioManagerSupport@se.com.

NAVIGATION AND CUSTOMIZATION OF YOUR PORTFOLIO MANAGER DATA WITHIN RESOURCE ADVISOR

Now that you've successfully made the Portfolio Manager and Resource Advisor connection(s), learn how to customize and navigate your Portfolio Manager data within Resource Advisor.

Sustainability > ENERGY STAR Site Overview

This page provides detailed information about your properties and sites based on Portfolio Manager and Resource Advisor shared data. This page will show property attributes from Portfolio Manager (e.g., Number of Workers, Number of Computers, Total Gross Floor Area, etc.). You can also do additional mapping that may be needed (e.g., if there are two PM properties for one RA site).

Mapping Sites

1. To view sites, type the site name into the box directly below Site Overview and click Go.

- 2. To map a property, type the property name into the **Portfolio Manager Property** field and click **Map**.
 - a. This will map an additional property to the Resource Advisor site selected in the exact same way as on the Property Report page. This will add Resource Advisor meters to PM and sync data.

tem	None	Read Only Access	Full Access

Percent Cooled	100
Number Of Cash Registers	5
Number Of Walk In Refrigeration Units	0
Number Of Open Refrigeration Units	4

This page will show the ENERGY STAR Score or EUI for the property in the ENERGY STAR Site Benchmarking Report.

Client Level Widget

The Energy Star Client Benchmarking Widget allows you to see a broad overall view of ENERGY STAR Portfolio Manager.

Add Widget

To add a widget, navigate to the Dashboard and click the top left "Hamburger" icon to open the menu.

Then click the "Widget" dropdown from the Flyout menu. Then select the Internal Benchmarking group

Customize	×
Dashboards	^
Q Search Dashboards	
🗁 My Dashboards	1 >
+ Dashboard + Folder	
Widgets	~

Customize	×	
Dashboards	~	
Widgets	^	
Q Search Widgets		
Internal Benchmarking	>	
Site / Portfolio Data	>	I
Trends	>	

And then click Add to Dashboard

Information Shown on Widget

The widget will show information related to the most recent month of data. Therefore if you have a score for a month in progress, it will be shown as "UnScored" below. The Leaders and Laggards sections will show properties with the highest "green" scores (greater than 75) and lowest "red" scores (less than 50). This widget is helpful to gauge the general standing of your properties in ENERGY STAR Portfolio Manager.

Users can choose the site via the dropdown above the Score, which will show available sites

Details tab will show the site information from the Energy Star Portfolio Manager

hart	Details
	Corporate Office 👃
