California Meter Aggregation Requirements

Pursuant to California Public Utility Code Section 2827 and Pacific Power Schedule NB-136, the customer electing to participate in net billing aggregation, by completing this form, agree to the following terms and conditions:

1. An eligible Customer-Generator with multiple meters (“Aggregated Accounts”) may elect to aggregate, for purposes of applying Exported Energy Credits under this Schedule, the meters located on the property where the renewable energy generation facility (“Generating Account”) is located and on all property adjacent or contiguous to the property on which the renewable energy generating facility is located, provided that all properties are solely owned, leased, or rented by the eligible Customer-Generator that elects to aggregate its electric load pursuant to this Special Condition. All of the Aggregated Accounts, including a single Generating Account, that are billed together under this Special Condition are referred to as an Aggregation Arrangement.
2. Accounts included in an Aggregation Arrangement are permitted to have non-net billing eligible generating facilities interconnected to them.

Billing Service Charges:

3. An eligible Customer-Generator electing Net Billing Aggregation shall remit service charges for the cost of providing billing services as follows. These charges shall include:
4. One-time setup charge of \$25.00 per Aggregated Account and for the Generating Account, and cumulatively, shall be limited to no more than \$500 per Aggregation Arrangement. Any account added to an Aggregation Arrangement is subject to this one-time setup charge;
5. Monthly charge of \$5 per Aggregated Account and for the Generating Account;

This agreement at all times shall be subject to such modifications as the California Public Utilities Commission may direct from time to time in the exercise of its jurisdiction.

Generating Meter: (meter physically attached to the generation facility)

Meter Number	Account Address as listed on your Billing Statement

Aggregated Meter(s):	
-----------------------------	--

Meter Number	Account Address as listed on your Billing Statement
#1	
#2	
#3	
#4	

Please attach additional sheets with aggregated meter information, if necessary.

The total annual output in kWh of the Renewable Electrical Generating Facility may be sized to aggregate part or all of the electrical requirements of the meters in the aggregation arrangement, but may not be sized to exceed those requirements.

Pacific Power reserves the right to request a parcel map to confirm the property meets the requirements described 1) above.
