Oregon Meter Aggregation Requirements
--

Pursuant to Oregon Administrative Rule 830-039-0065 and Pacific Power Schedule 135, the customer may aggregate for billing purposes the meter that is physically attached to the net metering facility (“designated meter”) with one or more additional meters (“aggregated meters”). The following conditions must exist to aggregate service.

- 1) The aggregated meters must be located on the same premise as the designated meter or on property that is contiguous to such premises
- 2) The electricity recorded by the designated meter and any aggregated meters is for the customer-generator’s requirements, and;
- 3) The designated meter and the aggregated meters are currently served by the same primary feeder.

Designated Meter: (meter physically attached to the generation facility)	
Meter Number	

Aggregated Meter(s):*	
Rank	Meter Number
#1	
#2	
#3	
#4	

*Meters subject to the same rate schedule as the designated meter must be ranked higher than any other meter. If you wish to aggregate additional meters please attach a separate sheet with meters listed in rank order.

By completing and returning this form to Pacific Power, I confirm the above meter aggregation rank order. I understand that the terms of my selection are subject to any future changes directed by legislature, the OPUC, or applicable law. I understand it may take up to 60 days for this request to take effect.
