

PILOT OVERVIEW

FLEET MAKE-READY PILOT

Our Fleet Make-Ready pilot helps fleet managers in Oregon easily and cost-effectively install electric vehicle charging infrastructure.

- Qualified participants receive a customized incentive to cover project design, engineering, permitting and construction costs associated with their EV fleet infrastructure.
- Incentives are paid in two milestone installments.
- Projects may not connect to existing electrical infrastructure and must be separately metered.
- Ownership, purchase or lease of a minimum of two electric vehicles are required during the project period.
- To qualify for incentives, participants must submit all required documentation including, but not limited to (*guiding checklist will be provided to participant upon application acceptance*):
 - Customer participation agreement
 - Electric service agreement (if applicable)
 - Utility easement (if applicable)
 - Pre-permitted, permitted and post-construction project documentation (participants will be provided guiding checklist upon application approval)
 - Proof of fleet electric vehicle purchase
- Participants will be required to keep infrastructure operational and share charging data with Pacific Power for 10 years.

PARTICIPANT ELIGIBILITY

- Pacific Power Oregon non-residential customers with an active commercial vehicle fleet are eligible.
- Applicants must be property or site owners or have authorization to sign applicable pilot agreements.
- Designate, purchase and install Pacific Power-approved level 2 or DCFC electric vehicle charging stations as shown on the Qualified Products List with software/network capabilities. *Please note: Funding does not cover the cost of the charging equipment.*
