* Incentives are capped at 70 percent of qualifying equipment costs.

HID = High Intensity Discharge (e.g. high pressure sodium, metal halide)
 PLC = Pin Lamp Compact Fluorescent
 PLL = Pin Lamp Long Compact Fluorescent
 TLED = Tubular Light Emitting Diode
 W = Watt

Qualifying lamps purchased starting on January 1, 2022, may be eligible for the new (revised) incentives.

Qualifying lamps purchased prior to January 1, 2022, may be eligible for the prior incentives.

Background:

It is Pacific Power's intent to make adjustments to the incentives periodically to address market conditions for lighting (changes in material costs, product availability, and price competition), and align with Pacific Power's defined savings target, incentive budget and cost-effectiveness requirements. When a change is needed, Pacific Power will post a notice on its website announcing the coming changes. The notice will be posted at least 45 days prior to the changes taking effect.
