

INCENTIVES FOR LIGHTING (NEW CONSTRUCTION/MAJOR RENOVATION)

| MEASURE | CATEGORY | ELIGIBILITY REQUIREMENTS | CUSTOMER INCENTIVE |
|---|--------------------------------------|--|----------------------------------|
| Interior Lighting | Troffer | Product must be listed on qualified equipment list. | \$12/fixture |
| | Linear ambient | | \$12/fixture |
| | High bay | Products must be installed in facilities where energy code applies. | \$25/fixture |
| | Other fixtures (not listed above) | | \$0.62/fixture wattage |
| | Advanced networked lighting controls | | \$1/W controlled |
| | Custom interior lighting | Products must be installed in facilities where energy code does not apply | \$0.08/kWh annual energy savings |
| Controlled Environment Agriculture (CEA) | LED fixture | Product must be listed on qualified equipment list. | \$0.10/kWh |
| | | Products must be installed in facilities where energy code does not apply. | |

Notes for new construction/major lighting incentives:

1. Project cost caps of 70 percent and one-year simple payback caps apply to new construction and major renovation projects that are not subject to state energy code. The one-year simple payback cap means incentives will not be available to reduce the simple payback of a project below one year. If required, individual measure incentives will be adjusted downward pro-rata so the project has a simple payback after incentives of one year.
2. Lighting equipment installed to comply with the applicable version of the state energy code, but not exceeding that code, is not eligible for incentives. Lighting equipment that exceeds the applicable version of the state energy code is eligible for incentives.
3. Eligible lighting equipment is defined in qualified equipment lists in the [Washington lighting catalog](#).
